

Supplemental Educational Service Provider List 2011-2012

Please note: Twin Rivers Unified School District will pay the provider for the cost of tutoring up to the amount determined by the State of California, when that amount has been paid, tutoring will be discontinued unless families take over payment for services. The hourly rate quoted by providers is divided into the amount that the state has allocated and determines the number of hours of services that will be provided. For example, a provider charging \$100.00 per hour can provide 10 hours of tutoring if the allocated amount is \$1086/student. All services are provided in Sacramento, California.
