The increased services for students will permit the classroom size to consist of up to 24 students with 1 teacher and 2 teacher assistants daily. This revised teaching model will ensure that every student is provided individualized support and the classroom environment is equipped to ensure all students’ needs both academically and socially are met. The revised teaching model further ensures the appropriate planning and collaboration time for teaching staff to develop lesson plans, classroom activities and collect the necessary evidence for the various assessments to monitor student progress. Start-up funds received in FY 2016/17 will be used to purchase a portable to place at Village Elementary that will provide services to 40 students.

This review was performed using the newly developed Monitoring for Compliance and Quality Improvement tool (MCQI). MCQI was designed in ChildPlus and is comprised of 21 monitoring checklists representing 396 performance indicators. All indicators align with the Head Start Program Performance Standards (HSPPS) November 2016, the Head Start Act, Community Care Licensing, and other local, state and federal regulations. During this pilot year, a smaller sample size was selected for review to ensure each agency/partner is exposed to each checklist in the new tool within the current program year. The pilot will help ensure each checklist represent all critical elements and that the processes meet the needs of stakeholders for continuous quality improvement.

**Highlighted Program Strengths and Positive Observations:**

- Excellent family engagement as evidenced by site-based parent meetings, Policy Council involvement and staff-parent interactions.
- Attentive and nurturing staff interactions with individual children.
- A variety of school and community events are offered such as Winter Festival and Parent Appreciation Day. Strategies to promote attendance and active engagement are used by the program (i.e. Perfect Attendance, Birthday awards for children and staff, and Family Nights twice a year).
- Use of community resources is highly promoted.
- Timely completion of ASQ, ASQ-SE screenings and DRDP assessments and parents’ input is included in the screening and follow-up process. Parents are well informed of all health screenings by staff.
- Efficient use of ASQ online. TRUSD provides printed copies of ASQ assessments in different languages for non-English speaking parents.
- All files are well organized and contain numbered sections with a reference for each section.
- System for medical care plans and medication administration (documentation and storage of medication) is exemplary.
- Staff is friendly and very responsive to input and recommendations.
- Classroom environment includes children’s artwork and pictures that are posted at children’s eye level.

* Scores between 90-99% per section will be addressed by the program but do not require a formal Corrective Action Plan Monitoring. Scores less than 90% require a program-level Corrective Action Plan. Determination of a Comprehensive Review and/or Differentiated Review will be based on historic data.

**Follow-up and Corrective Action Plans:**

A program-level Corrective Action Plan (CAP) to address above areas of non-compliance is due to SETA within 30 days of receipt of this report. Governing Board/School Board notification of monitoring results is required within 60 days.

Programs have been provided a form to complete the CAP which serves as written response by the agency to resolve systems-level areas of non-compliance identified during the MCQI review. A program trend CAP does not supersede the individual CAP for non-compliant indicators using the Child Plus Internal Monitoring Module.
