TRUSD Superintendent's Message

January 2019

Dear Students and Parents,

Twin Rivers Unified School District is committed to excellence for all students. We provide rigorous academic and career programs and equitable access to ensure that our students graduate college and career ready.

Our new 2019-2020 course catalog is the Twin Rivers official resource to learn about our high school academic programs and should be used as a guide in planning and meeting requirements for graduation and college admission. We provide our students with multiple roads to success — from academics (Advanced Placement classes), Career Technical Education (CTE), Concurrent Enrollment (for college credit), and Visual and Performing Arts (VAPA). The Course Catalog also includes important information about high school testing, academic policies for co-curricular and extracurricular participation, and UC/CSU A-G Subject Requirements to ensure students are well-prepared to succeed in college.

Parents, please take the time to review the course catalog with your child and with their school counselor to begin a four-year plan of action. The choices you make now will determine the opportunities that will be available to students before and after graduation.

Sincerely,

Steve Martinez, Ed.D.
Superintendent, Twin Rivers USD

Board Adopted Core Beliefs

- All students will graduate from high school ready for their college, career and civic-minded duty.

- All students will have a safe, clean and secure environment that is free of bullying in order to create the best possible opportunities for learning.

- Student engagement is critical to student success.

- Partnerships with all stakeholders are vital to student success.

- TRUSD will be fiscally sound and maximize resources for student success.

- TRUSD will honor diversity and create equity across the district.

- TRUSD will identify, recruit, retain and develop the best employees.
All students will have a safe, clean and secure environment that is free of bullying and that creates opportunities for learning.

Student Achievement • Implementation of State Standards • Access to Courses

Student Engagement • Parental Involvement • Basic Services • Other Student Outcomes

TRUSD will identify, recruit, retain and develop the best employees.

TRUSD will honor diversity and create equity across the district.

Student engagement is critical to student success.

TRUSD will be fiscally sound and maximize resources for student success.

TWIN RIVERS UNIFIED SCHOOL DISTRICT

CB: TRUSD Core Beliefs

LCAP - California Local Control Accountability Plan / Eight State Priorities
Central to the philosophy of Twin Rivers Unified School District is the belief that every individual can learn. In supporting the core beliefs established by the School Board, our schools prepare students to be college and career ready.

This Course Catalog describes Twin Rivers Unified School District’s high school course offerings for the 2019-2020 school year. This catalog provides basic planning information so students and parents can develop an academic plan. Students should select courses that will best prepare them for postsecondary experiences and options. With the support of their parents and counselor, students will be able to design their course schedule for the upcoming school year. Each high school’s counseling staff is ready to assist students and parents in the development of a personalized four-year plan. Parents are vital partners in their child’s high school success. Please call upon your school’s educational staff whenever you are in need of assistance.

Specific references to pertinent Educational Code and Board policy are indicated to provide parents with specific reference points and additional information where relevant.

Disclaimer: Not all course offerings are available at all sites and during all semesters. Check with your child’s school for specific offerings for the upcoming semester. Exención de responsabilidad: No todos los cursos ofrecidos están disponibles en todos los planteles y durante todos los semestres. Verifique con la escuela de su estudiante para ofertas específicas en el próximo semestre. Kev Tsis Lees Paub: Tsis muaq txhua txhua hooj kawn nyob haav txhua lub tsev kawn ntawv thiab nyob rau txhua txhua lub semesters. Nug koi tus me nnyum lub tsev kawn ntawv seb muaq hooj kawn twg nyob rau lub semester tom ntej no. Отказ от ответственности: Не все предлагаемые предметы доступны в каждой школе и в каждом семestre. О наличии конкретных предметов на предстоящий семестр обращайтесь в школу вашего ребенка.

Graduation Requirements

Course Requirements
(TRUSD BP 6146.1)
Student Handbook Page 7

English - 40 Credits
(Education Code 51225.3)
- Eight semesters in English shall include two semesters in the following courses: ELA 9, ELA 10, ELA 11, ELA 12
- English Language Development (ELD) courses for English Language Learners can substitute for a maximum of one course per year. (cf. 6142.91)

Mathematics - 30 Credits
(Education Code 51225.3)
- Two semesters shall meet or exceed state academic content standards for Algebra I (Education Code 51224.5)
- Four semesters of math in addition to Algebra/Integrated Math 1

Science - 20 Credits
(Education Code 51225.3)
- Two semesters in a biological science
- Two semesters in a physical science

Social Studies - 30 Credits
(Education Code 51225.3)
- Two semesters of United States history
- Two semesters of world history
- One semester course in American government and civics
- One semester course in economics

Visual/Performing Arts/Foreign Language - 10 Credits
(Education Code 51225.3)
- Two semesters in visual and performing arts or foreign language

Physical Education - 20 credits
(Education Code 51225.3)
- Two semesters in PE course 1
- Two semesters in PE course 2 or 3
(Unless the student has been otherwise exempted pursuant to other sections of the Education Code). The principal of alternative schools has the option to waive up to 10 credits of Physical Education, excluding grade 9 Physical Education.

Health - 5 credits
- One full semester of health class

Electives - 65 credits
Required during grades 9-12; classes may be selected from course offerings in any department.

Technology Requirement
Must demonstrate proficiency in current technology or competency on the district technology challenge test or pass at the minimum one semester technology course. (TRUSD AR 6155)

CAASPP PROGRAM
C.C.R., Title 5, Sec. 850-870; E.C. 60600-60652; B.P. 6162.51; A.R. 6162.51

Students will participate in the California Assessment of Student Performance and Progress (CAASPP) system by taking a series of computer-based tests developed by the Smarter Balanced Assessment Consortium (SBAC) that will provide an academic checkup for students by measuring real-world skills like critical thinking and problem solving. These assessments offer significant improvements over tests of the past, including new types of questions and performance tasks that require students to apply a variety of skills to complete complex tasks that will prepare them for college and the workplace.

CAST
The California Science Test (CAST) is part of California’s system of assessments called the California Assessment of Student Performance and Progress (CAASPP). This test will be administered to grades 5, 8 and 11.

EAP
Is now embedded in the SBAC.
Grade 11 students will receive feedback regarding their preparedness for college by participating in the Early Assessment Program (EAP) through the SBAC Exam. Each spring, all grade eleven students in California take the Smarter Balanced Summative Assessments for English language arts/literacy (ELA) and mathematics. These assessments, which are administered as part of the California Assessment of Student Performance and Progress (CAASPP) System, also serve as an indicator of readiness for college-level coursework in English and mathematics and are used by the California State University (CSU) and participating California Community Colleges (CCCs) to determine Early Assessment Program (EAP) status. All students now participate in EAP by virtue of completing the Smarter Balanced Summative Assessments for English language arts/literacy and mathematics. Students must authorize the release of their CAASPP (i.e., Smarter Balanced Summative Assessment) results for each assessment to the CSU and CCC systems.
- The release of results for both English language arts/literacy and mathematics must be completed separately.
- Students that do not release their results at the end of the assessments may later submit a copy of their score report to the CSU and/or community college in which they have enrolled.

The release of the CAASPP results will not affect a student’s application for admission. Results are only used to determine a student’s placement after he or she has been admitted to the university.

After you take the test, you will receive a score report by mail that tells you whether you need additional preparation for college-level work or meet CSU’s requirements for freshman math and English courses. Visit CSU’s Success website for tools available on pinpointing individual strengths and weaknesses. If you need more time to prepare, you have your entire senior year to do so. [http://www.csusuccess.org/caaspp](http://www.csusuccess.org/caaspp)

ELPAC
The progress of English learners is assessed by Twin Rivers Unified School District as required by state and federal law, and consistent with the district’s Master Plan for English learners. The ELPAC is the California assessment that is used to determine the English proficiency of students whose primary language is not English. It consists of two separate English language proficiency assessments: one for the initial identification of students as English learners (ELs), and a second for the annual summative assessment to measure a student’s annual progress in learning English and to identify the student’s level of English language proficiency. The ELPAC includes assessing students’ ability to listen, speak, read, and write in English. The district is required to notify parents/guardians as soon as possible, in writing, that the initial ELPAC will be administered to their child(ren).
High School Testing

California High School Proficiency Examination

The California High School Proficiency Examination (CHSPE) is a program established by California law. (E.C. 48412) If eligible to take the test, you can earn the legal equivalent of a high school diploma by passing the CHSPE. The CHSPE consists of two (2) sections: an English Language Arts section and a mathematics section. If you pass both sections, the California State Board of Education will award you a Certificate of Proficiency, which by state law is equivalent to a high school diploma.

You may take CHSPE if, on testing day, you:

- Are at least 16 years old; or
- Have enrolled in the 10th grade for one (1) academic year or longer; or
- Will complete one (1) academic year of enrollment in the 10th grade at the year-end of the semester during which the next regular administration will be conducted.

http://www.chspe.net

District Testing Calendar

To review our district assessment calendar, please go to TRUSD’s Assessment and Accountability Web page:
http://www.twinriversusd.org/Academics/Assessment-and-Accountability/index.html
Credit Guidelines (TRUSD BP 6146.1)

1. Students in grades 9, 10, 11 shall enroll in six periods a day every semester. Students in grade 12 shall enroll in a minimum of five periods a day both semesters. (Education Code §51225.3)

2. Students may earn up to 20 additional credits throughout the year by participating in CHARGE and Summer School.

3. Credits beyond 40 per semester require administrative designee’s approval.

Pass (Grade of P) (TRUSD AR 5121)
A student receives credit, but the grade is not used in computing the student’s GPA.

Progress Reports (P) and Report Cards (RC)
Four report cards are issued per semester - at approximately five weeks (P), at nine weeks (RC), 14 weeks (P), and at eighteen weeks (RC). All progress reports and report cards are mailed home.

Withdrawal Failure (WF) (TRUSD AR 5121)
A student may initiate the dropping of a class, without penalty, until the end of the fourth week of each semester. After that date, withdrawal will result in a “WF” grade on the student’s transcript that will be computed in their overall GPA.

Class Rank (TRUSD AR 5121)
This is an optional field on the student transcript that may be included/excluded for college applications based upon student/parent preferences.

The Governing Board acknowledges the usefulness of and authorizes a system of computing grade point averages and class ranking. The objectives are to: (1) provide information for school and district awards, and (2) provide employers and institutions of higher learning a predictive device so students are placed in the appropriate environment conducive to success. The Governing Board recognizes the value of curricular subjects and wishes to honor many students for their academic success. Therefore, class rank shall be computed by the grades earned in Board approved courses.

A student’s grade point average and both a non-weighted and weighted class rank shall be entered on the student record and shall be subject to the Governing Board’s policy on release of student records. The weighted class rank is provided as a service to assist students in college admission and is used within the TRUSD system to identify Valedictorian or Salutatorian status. A weighted class rank may be used by individual high school sites to identify students for special awards of distinction. The class rank for graduating seniors is based upon the cumulative grade point average for seven semesters.

Computing Grade Point Average (TRUSD AR 5121)
A student receives five semester credits or units for each class during a semester in which a passing grade (A, B, C, D, P) is earned. No credit is awarded at the five-week, nine-week or fourteen-week progress reports/report cards. Grades at those times are progress reports to the student and parent. The cumulative grade point average is computed by awarding grade points (A=4, B=3, C=2, D=1, F=0) for all classes with the exception that the scale (A=5, B=4, C=3, D=1) is used for classes that the District submits to the University of California for the awarding of an extra grade point (Advanced Placement and 11th and 12th grade Honors courses). Courses that receive an extra grade point is denoted with a (+) on student transcripts.

College Preparatory Course (P)
Any course designated by (P) is a college preparatory course that satisfies one of the criteria established by the UC/CSU system in its “A-G” college entrance requirements.

Repeatable Courses (TRUSD AR 5121)
Certain courses are repeatable for credit (i.e. Advanced Band). See your counselor for more information.
Academic Policies

Repeating a Course (TRUSD AR 5121)
A student may petition to substitute a grade by repeating a course with the following understanding and condition: The grade received in the repeated course will appear on the transcript (higher or lower).

Honors Level Class (TRUSD BP 5121)
Any class designated by “+” is an honors level or Advanced Placement (AP) course that satisfies the criteria established by the UC/CSU systems. The universities will also grant an additional grade point for a passing grade in an honors level class (“+”) when computing its grade point average for admission review. The University of California policy states that they allow up to four honors/AP courses to receive the extra grade point when calculating GPA’s for UC/CSU admissions. School sites award the extra grade point for all honors and AP courses (with the exception of honors courses taken in 9th and 10th grade). The University of California may grant credit for Advanced Placement exams on which a student scores 3 or higher. The credit may be subject to credit, graduation credit, or credit toward general education or breadth requirements, as determined by evaluators at each UC campus. Other Honors (AP) sections of other selected classes are offered at the school sites that enrich the course of study of the regular course (i.e. Honors English 9, Honors Biology, etc.). These courses do not receive extra grade points for passing grades in the admissions review process.

Incomplete Grade (TRUSD AR 5121)
A semester incomplete (I) grade may be issued by a teacher, with administrative approval, when a student has not completed the course requirements due to an extended absence or extenuating circumstances. The student will have up to six weeks to complete the required work and receive a passing grade. An incomplete grade not resolved by that time will be changed to an “F.”

Challenging Course by Examination (TRUSD AR 6155)
High school students are allowed to challenge a given course by examination for grade and credit in order to accelerate progress towards graduation and to achieve more flexibility in the selection of electives. The examination shall be comprehensive and cover all course objectives. Successful completion of the examination shall be at a level which indicates mastery of the content and/or reasonable chance for success in the next higher course. Notation of course completion done by challenging course by examination will be noted on the student’s transcript.

Credit Earned Via Advanced Education at a Community College (TRUSD 6146.11)
A student must meet the minimum requirements set by the post-secondary institution in order to apply as an Advanced Education student. To receive high school credit for coursework completed at a community college or four-year college, the student must pass the course with a D or better and complete a concurrent enrollment form. The course must be one that satisfies college entrance requirements, applies toward college-level general education requirements, or is part of a vocational or career technical education course leading to a degree or certificate (BP 6146.11).

One college unit equals 3.33 high school credits. A three-unit college course equals 10 high school credits.

Outside Online Courses (TRUSD 6146.11)
While a student is enrolled as a TRUSD student they may earn high school credits from an outside online provider that counts towards graduation if:

- The online provider is accredited
- The course is part of the student’s academic plan

5 CCR 1633 (Education Code 51740-51741)
World Language Instruction  
(TRUSD 6146.11) 
The district shall grant credit for foreign language studies successfully completed in a private school and shall apply the credit toward meeting any foreign language requirement prescribed for grades 9 - 12. If the student or parent/guardian applies in writing for the credit, specifies the private school attended and the amount and level of credit requested, and submits a transcript or other documents from the private school showing that the student successfully completed the course, the amount of credit sought equals at least one semester’s work and the principal or designee determines that the student’s achievement is equivalent to that expected of a student of comparable ability taking the same or similar instruction in district schools. (BP 6146.11 and Education Code 51243-51245)

Mandatory Interim Student Records Folders  
Mandatory Interim Student Records (formerly cum) folders must follow students from school to school and district to district. School districts, by law, are allowed to keep the original folder in their possession and forward a photocopy to the school of subsequent student enrollment. Parents have entitlement to all documents kept in their student's folder, and by request, may receive photocopies of all pertinent information for a nominal fee. Folders must be destroyed following the fifth school year after students’ attendance ceases.
Advanced Placement (AP)
AP courses are offered at Foothill High School, Grant Union High School, Highlands High School, and Rio Linda High School. The Advanced Placement (AP) program is a cooperative endeavor that helps able high school students complete college-level courses and permits colleges to evaluate, acknowledge, and encourage that accomplishment through the granting of appropriate credit and/or placement. The AP program is national in scope; its policies are determined by representatives of the College Board member institutions and agencies throughout the country (public and private secondary schools, colleges, and universities) and are implemented by the College Board.

Advanced Placement exams are offered each spring. Students successful in AP courses generally have adequate preparation for these three-hour long comprehensive exams. Each exam is administered once a year during the first and second weeks in May. Most colleges award credits and/or advanced placement for demonstrated subject area proficiency. Additional information about the AP program is available in the counselors’ offices and at http://apcentral.collegeboard.com/home

Students choosing to take an AP Examination are subject to a test fee which is charged by the College Board. Reduced fee applications, due to financial hardship, are available in the counselors’ office.

Twin Rivers Adult School
Twin Rivers Adult School provides academic and vocational opportunities including:

- **A-G Credit Recovery** - For Twin Rivers Unified high school students who need to recover credits due to deficiencies in core subject areas
- **English as a Second Language** - For adult students who desire to improve their English skills in reading, speaking, and writing
- **GED** - Classes are available in Spanish and English for adult students 18 years or older, and Twin Rivers Adult School is an official GED test site.
- **High School Diploma** - For adult students who need to obtain their high school diploma

For more information, contact 916 566-2785 or visit http://www.tras-trusd-ca.schoolloop.com/

Articulation with Community Colleges
Articulation is the process of evaluating courses to determine whether coursework completed at a high school or CTE meets the requirements at a community college or postsecondary institution. The articulation process is designed to help students advance from one course, program or educational level to the next without repetition of essentially similar courses for which credit has been received. This is an option to earn college credit in high school; see instructor for more information.

AVID
Advancement Via Individual Determination (AVID) is an elementary through postsecondary college readiness system that is designed to increase school-wide learning and performance. The AVID system accelerates student learning, uses research-based methods of effective instruction, provides meaningful and motivational professional development, and acts as a catalyst for systemic reform and change.
Although AVID serves all students, it focuses on the least served students in the academic middle. The formula is simple - raise expectations of students and, with the AVID support system in place, they will rise to the challenge. What differentiates AVID from other educational reform programs is its astounding success rate. Since 1990, more than 85,500 AVID students have graduated from high school and planned to attend college. Of the 22,210 AVID 2010 seniors who reported their plans, 91.3% intended to attend a postsecondary institution; 58.3% in four-year institutions and 33.0% in two-year institutions.

Not only are students enrolled in their school’s toughest classes, such as honors and Advanced Placement®, but also in the AVID elective. For one period a day, they learn organizational and study skills, work on critical thinking and asking probing questions, get academic help from peers and college tutors, and participate in enrichment and motivational activities that make college seem attainable. Their self-images improve and they become academically successful leaders and role models for other students.

**Concurrent Enrollment**

American River College (ARC) distance learning concurrent enrollment classes are semester long courses, and students will receive 10 high school credits and 3 college credits for each course. The courses will be offered at Highlands High School, Rio Linda High School, Grant High School, Foothill High School and Creative Connections Arts Academy. These college credits are transferable to University of California (UC), California State University (CSU) and Community Colleges. These courses must be passed with a C or better to receive college credit.

**CTE Pathways**

Career Technical Education (CTE) pathway courses are offered as coursework for numerous pathway programs. CTE courses provide students of all ages with the academic and technical skills, knowledge, and training necessary to succeed in future careers and to become lifelong learners. All CTE courses offer hands-on learning in specific industry-related sectors relevant to the community and the state. CTE pathway courses also offer a wide range of additional educational benefits including college credit for qualifying courses, industry certifications and career-ready skills to enter any industry sector.

**English Learners**

Twin Rivers Unified School District (TRUSD) is committed to providing rigorous, equitable, and engaging instruction in a supportive culture of learning with high expectations. The cultural and linguistic assets of English Learners are valued, maintained, and protected to promote bilingualism, bi-literacy, and bi-culturalism. The English Learner Services Department (ELSD) provides schools with quality instructional support, guidance, and direction to improve instruction for English learners and ensure their academic success. This entails the implementation of proven, research-based instructional strategies that are utilized in conjunction with district-adopted resources to meet the academic needs of English Learners based on individually assessed needs.

In addition to guiding academic instruction, English Learner Services Department supports the productive engagement and involvement of parents of English Learners as critical partners in the success of our students. This support includes the establishment of functioning English Learner Advisory Committees (ELAC) and the creation of a welcoming environment for English Learners and their families and facilitation of the District English Learner Advisory Committee (DELAC).
Programs

Graduation Rate Increase Program
Students who are in need of additional academic opportunities to meet TRUSD’s high school graduation requirements can participate in the Graduation Rate Increase Program (G.R.I.P.). For more details, please contact your child’s counselor.

Seal of Bi-literacy
Twin Rivers Unified School District awards the State Seal of Biliteracy in accordance with criteria developed by the California Department of Education. The program recognizes high school graduates who have attained a high level of proficiency in speaking, reading, and writing one or more languages in addition to English. It takes the form of a gold seal affixed to the high school diplomas of qualified students and is noted on their high school transcripts. Qualified students also receive a medallion and honor cord to wear during their commencement ceremonies.

Special Education Services for Special Education Students
The mission of the Twin Rivers Unified School District Special Education Department is to inspire each student to extraordinary achievement every day. The TRUSD Special Education Department provides a variety of Special Education services and programs for students identified as having needs under Special Education Law. The students are provided standards-based instruction, following the California Common Core State standards, in accordance with the Individualized Education Plan (IEP). Some programs remain constant from year to year while others are changed annually to meet the changing needs of students. Students are eligible for special education and related services only upon the recommendation of a Special Education evaluation team. The frequency, duration, and type of service are recommended at the team meeting in response to the individual needs of each student.

Small Group Instruction
This program of instruction is for students who are not able to access the general education curriculum within a typical classroom. This curriculum parallels the typical general classroom and adheres to the California Frameworks. Students will develop key concepts and skills in the content areas while receiving embedded instruction in academic areas, organization, and study skills in order to become more independent learners.

Specialized Academic Instruction
Special Education staff work closely in collaboration with general education teachers to provide assistance and accommodations to mainstreamed students in the regular classroom.

Independent Living Skills Program
The mission of the Independent Living Skills Program is to provide students with disabilities various academic skills and hands-on learning experiences to empower them to become as independent as possible. For example, reading skills are addressed through materials that are relevant to everyday life, and math activities assist students with money management and other skills essential to daily living. Students have the opportunity to explore their community through travel training and various community trips where they apply learned skills (e.g., grocery shopping, visiting key resources such as the post office, YMCA, library, career sites, etc.).

Post-Certificate of Completion Program
Provides transition services and experiences to post-high school students who have not received a diploma and need some additional assistance transitioning to adult life. Specific focus is on the development of daily living skills, personal social skills, and occupational/vocational skills. Students
directly practice skills for independent living and regularly travel within the community. They also participate in increasingly independent career and employment opportunities with local businesses and organizations. The overall goal is for students to acquire life and vocational skills that will enable them to be gainfully employed with varying levels of supervision. Individual job sites are sought out based on individual student aptitudes and interests.

**Related Services**

Related Services are available for students who are designated as eligible for these services through the IEP process. These are not instructional services and are not included in the course listing.
TRUSD offers many cutting-edge, rigorous and relevant Career and Technical Education (CTE) pathways that prepare youth for a wide range of high-wage, high-skill, and high-demand careers that are integrated with their academics. Many of the courses are A-G approved and/or give students the opportunity to receive college credit.

AC = CA Partnership Academy course
DE = Dual Enrolled course
Academic Policies for Co-Curricular & Extracurricular Participation

Grade Point Average Requirement:
A student must earn at least a 2.0 grade point average in all enrolled classes for the prior grading period in order to participate in co-curricular activities. A student who fails to achieve at least a 2.0 grade point average will be placed on probation for the current grading period provided the student complies with the school’s tutorial assistance program. A student who does not achieve at least a 2.0 grade point average during the probationary period shall not be allowed to participate in co-curricular and extracurricular activities in the subsequent grading period.

End of Grading Period/Semester:
A school must declare students eligible, ineligible, or on probation on the same day following the close of the previous grading period. This date should be set to allow for accuracy in the issuance of grades and the determination of grade point averages.

Summer School/CHARGE:
Summer school grades may be combined with grades from the last grading period in computing the grade point average to determine eligibility for the first grading period of the next school year. Courses taken in CHARGE will be applied to the corresponding semester’s GPA.

Transfer Students:
Twin Rivers Unified School District and its high schools are members of the California Interscholastic Federation, CIF, which is the governing body for high school athletics. The high schools follow the rules and policies of the CIF regarding transfers and their eligibility for participation in high school sports. These rules can be found at www.cifstate.org, as they are covered in Bylaw 200 in the CIF constitution.

NCAA Eligibility

Students planning to enroll in college as a college freshman and wanting to participate in Division I or Division II athletics must be certified by the NCAA Initial Eligibility Center. The Center ensures consistent interpretation of NCAA initial eligibility requirements for all prospective student athletes at all member institutions.

Obtaining complete information regarding athletic eligibility at the college level is the responsibility of the parent and student/athlete with support of the high school counselor. Information is available online at www.ncaa.org. Applications are available in the counselors’ office. Students should start this process in the spring of their junior year of high school. It is the student’s responsibility to make sure the NCAA Eligibility Center has the following documents it needs to certify a student/athlete:

1. A completed and signed student release form and NCAA registration fee or fee waiver;
2. An official transcript mailed directly from every high school attended;
3. ACT or SAT scores (students should request their scores be sent directly to the Eligibility Center)

Do you want to be a college athlete? Here’s what you have to do to be eligible: 1) Graduate from high school 2) Complete a minimum of 16 core classes 3) Present a minimum grade point average (GPA) in core classes 4) Present a qualifying test score on either ACT or SAT test. Check the NCAA website at www.ncaa.org and your counselor for further information.
Standardized Tests

Standardized tests provide useful information for post-secondary admissions officers, career counselors, academic advisors, and students. Post-secondary admissions officers use ACT, SAT I and SAT II scores, along with the high school academic record, to predict college admission. Career counselors use interest inventories, aptitude batteries, and working-style assessments. Academic advisors use test data to assist students with the selection of courses and majors. Students obtain objective information for good decision-making.

Aptitude tests are designed to measure potential for success in specific areas. Achievement tests assess recall and application of knowledge or skills acquired previously. Interest inventories identify areas of likes and dislikes. Working-style assessments isolate the type of setting in which one prefers to work.

College Entrance Exams

American College Test (ACT)
ACT is an achievement test emphasizing analytical thinking and problem-solving skills. Scores are given in English, Math, Reading, and Science Reasoning; career guidance information is provided. The test is administered six times a year. This is a college admission test taken in the spring of the junior year or the fall of the senior year. For more information: http://www.actstudent.org/

Preliminary Scholastic Aptitude Test (PSAT/NMSQT) measures verbal (vocabulary and reading comprehension) and math abilities. The test is an excellent exposure to pre-college testing, and when taken in the junior year, is the qualifying test for the National Merit Scholarship competition. This test is administered once a year in October. For more information: http://www.collegeboard.org/psat-nmsqt

Scholastic Aptitude Test (SAT)
The SAT measures verbal, writing, and mathematics abilities. This college admission test is given seven times a year. For more information: https://sat.collegeboard.org/home

Scholastic Aptitude Subject Test (SAT II)
This test is offered in 15 areas from English, social science, math, science, and foreign language. Many competitive colleges require tests in three areas (writing, mathematics, and the third of the student’s choice). Check college catalogs to determine which subject tests are required. Up to three tests may be taken on one date, but the SAT Subject Test cannot be taken on the same day that a student takes the SAT. This test is best taken upon completion of the related course.

Additional information and applications for the college admission tests are available in the counselors’ offices.

Career Guidance Measures Armed Services Vocational Aptitude Battery (ASVAB)
This test consists of ten short sections designed to measure skills and knowledge essential to military and civilian career specialties. Taking this free test does not obligate one to the armed forces, but may provide valuable insight for the student.
### Preparing for College: A Step-by-Step Guide

#### Grade 9
- Develop a four-year plan in “My 4-Year Plan”
- Take Integrated Math 1 or Geometry, and a world language
- Maintain A’s and B’s in all subjects, and do at least one hour of homework each night
- Form a study group with friends who also plan to go to college, and study together often
- Create a personal resume file to save: report cards, diplomas and certificates presented to you, a list of honors and awards you receive, a list of school and community activities you join, a list of offices you hold in these organizations, a list of jobs you hold (paid and volunteer). Update this file each semester
- Begin visiting local community colleges, state universities, and an independent college or university with your family or friends. Call the admissions office for brochures and information about campus tours
- Participate in academic enrichment programs

#### Grade 10
- Review your freshman and sophomore grade class schedule in “My 4-Year Plan” with your counselor to make sure you are taking college prep classes
- Maintain A’s and B’s and do at least one to two hours of homework every night. Update your personal resume file
- Continue to visit local community colleges, state universities, or independent schools. In October, take the PSAT
- Continue to participate in academic enrichment programs

#### Grade 11
- Use “My 4-Year Plan” to monitor your academic progress. Maintaining A’s and B’s is especially important during your junior year. You should be doing a minimum of two hours of homework each night
- In October, register for the PSAT. The results will give you and your counselor an idea of your strengths and the areas you need to improve as you prepare for college admission
- Some students may want to repeat the PSAT as this serves as the National Merit Qualifying Test for juniors
- In the spring, register to take the Advanced Placement (AP) exams if you are taking AP subjects
- Do some research and create a file on colleges that appeal to you
- Begin visiting the colleges that interest you and continue to update your resume
- Consider taking the SAT subject area tests that will be completed in your junior year
- Over the summer, prepare for the SAT or ACT by using Khan Academy and reading books and manuals with testing tips and sample questions
- Complete NCAA Clearinghouse initial eligibility application (athletes)

#### Grade 12
- Continue to use “My 4-Year Plan”, form study groups, and do two to three hours of homework per night. Maintain A’s and B’s; your grades are still very important
- Check frequently with your counselor or career center director for information about scholarships
- In early September, register for the SAT and ACT
- In October, apply for your FAFSA PIN number
- Keep a file on each school that includes a checklist of all the required admission items such as transcripts, application fees, recommendations, essays, test scores, etc. Pay special attention to deadlines - mark them on your personal calendar - and apply early. Use “My 4-Year Plan”
- Practice filling out applications or scholarship forms on a photocopy first. Also, many colleges have electronic applications which can be filled out on a computer and sent over the Internet
- In October or November, file your CSU applications
- In November, file your UC applications
- December is a critical time for private colleges, early-consideration applications, and merit scholarships
- In January, complete the Free Application for Federal Student Aid (FAFSA) online
- In January, remind your parents to prepare their income tax statement early enough to photocopy for colleges where you will apply for financial aid
- In the spring, wait for your acceptance letter/email - you may also hear about financial aid and scholarship eligibility about this same time
- By May 1, mail/email your commitment deposit check to the college or university you plan to attend
The University of California and the California State University systems have laid out a plan for the courses a student needs to take for acceptance into those university systems. This includes:

<table>
<thead>
<tr>
<th>Subject Area</th>
<th>Years Required</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>a. History/Social Science</strong></td>
<td>2 years</td>
</tr>
<tr>
<td>Including one year of world history, cultures and geography; and one year of U.S. History or one-half year of U.S. History and one-half year of Civics or American Government.</td>
<td></td>
</tr>
<tr>
<td><strong>b. English</strong></td>
<td>4 years</td>
</tr>
<tr>
<td>College-preparatory English that includes frequent and regular writing, and reading of classic and modern literature. No more than one year of ESL-type courses can be used to meet this requirement. Not more than two semesters of 9th grade English can be used to meet this requirement.</td>
<td></td>
</tr>
<tr>
<td><strong>c. Mathematics</strong></td>
<td>3 years (4 years recommended)</td>
</tr>
<tr>
<td>Three units (equivalent to three years) of college-preparatory mathematics (four units are strongly recommended), including or integrating topics covered in elementary algebra, advanced algebra, and two-and three-dimensional geometry.</td>
<td></td>
</tr>
<tr>
<td><strong>d. Laboratory Science</strong></td>
<td>3 years (4 years recommended)</td>
</tr>
<tr>
<td>Fundamental knowledge in at least two of these three foundational subjects: biology, chemistry, and physics. Advanced laboratory science courses that have biology, chemistry, or physics as prerequisites and offer substantial new material may be used to fulfill this requirement. The last two years of an approved three-year integrated science program that provides rigorous coverage of at least two of the three foundational subjects may be used to fulfill this requirement.</td>
<td></td>
</tr>
<tr>
<td><strong>e. Language Other Than English (LOTE)</strong></td>
<td>2 years (3 year recommended)</td>
</tr>
<tr>
<td>Courses should emphasize speaking and understanding, and include instruction in grammar, vocabulary, reading, composition, and culture. Courses in languages other than English taken in the seventh and eighth grades may be used to fulfill part of this requirement if your high school accepts them as equivalent to its own courses.</td>
<td></td>
</tr>
<tr>
<td><strong>f. Visual and Performing Arts (VAPA)</strong></td>
<td>1 year</td>
</tr>
<tr>
<td>Approved arts course from a single VAPA discipline (dance, drama/theater, music, or visual art).</td>
<td></td>
</tr>
<tr>
<td><strong>g. College Preparatory Elective</strong></td>
<td>1 year</td>
</tr>
<tr>
<td>In addition to those required in a-f above, chosen from the following areas; visual and performing arts (non-introductory level courses), history, social science, English, advanced mathematics, laboratory science, and language other than English (a third year in the language used for the e requirement or two years of another language or courses approved for use as “g” electives.)</td>
<td></td>
</tr>
</tbody>
</table>
A **CEEB code** is a standardized ID number that is assigned to a high school, college, or university. These 6-digit codes are mostly used in college entrance exams such as the SAT and ACT.

### California Higher Education Opportunities

#### Community College

<table>
<thead>
<tr>
<th>Institution</th>
<th>Admission Requirements</th>
</tr>
</thead>
</table>
| • Number of: Approximately 107 statewide  
• School Examples: American River College, Sacramento City College, Sierra College  
• Length: Two years  
• Course Work: Career and job-entry majors  
• Transfer credits to four year educational institutions  
• Degrees or Certificates: Vocational Certificates, Associate of Arts (AA) and Associate of Science (AS)  
• Costs (Tuition and Books): Varies based upon budget factors | • Core Subject Requirements: There are no subject requirements  
• Grade Point Average (GPA): There is no minimum GPA requirement  
• Educational Background: You must be at least 18 years old or a high school graduate  
• Assessments: Placement tests for English and mathematics |

#### California State University

<table>
<thead>
<tr>
<th>Institution</th>
<th>Admission Requirements</th>
</tr>
</thead>
</table>
| • Number of: 23 statewide, accepting the top one-third of graduates  
• School Examples: CSU Sacramento, CSU Chico, CSU East Bay, Cal Poly  
• Length: Four years with Graduate Programs  
• Course Work: Pre-professional training  
• Various majors  
• Degrees or Certificates: Bachelor of Arts (BA) and Bachelor of Science (BS). Various Masters degrees  
• Teaching credentials  
• Costs (Tuition and Books): Varies based upon budget factors | • Core Subject Requirements: These requirements are the same as the University of California. See UC core subject requirements  
• Grade Point Average (GPA): Students should maintain at least a grade point average of “C” or better. GPA is combined with SAT I or ACT scores to determine eligibility  
• Educational Background: Graduate from high school or hold a valid California High School Proficiency Examination Certificate and meet the core subject requirements  
• Assessments: American College Test (ACT) Scholastic Assessment Test (SAT: Reasoning) |

# My 4 Year Plan

High school is the chance to explore areas of academic and co-curricular interest. Twin Rivers provides students and their parents [My 4 Year Plan](http://www.my4yearplan.com) to build and monitor a four-year academic plan online. Students and parents will work hand in hand with their counselor to ensure that our students are on track to achieve their post-secondary goals. Please contact your counseling department for login and general information.

Course Descriptions – English

AP English Language and Composition
133001 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 11 Duration: Year (10 credits)
HS Grad Req: English UC/CSU a-g: B: English
Prerequisite: None
Course Description: “An AP course in English Language and Composition engages students in becoming skilled readers of prose written in a variety of rhetorical contexts, and in becoming skilled writers who compose for a variety of purposes. Both the writing and their reading make students aware of the interactions among a writer’s purposes, audience expectations, and subjects, as well as the way genre conventions and the resources of language contribute to effectiveness in writing.” – College Board
Note: Students who successfully pass the AP Language and Composition exam in the spring may be eligible for college credit.

AP English Literature and Composition
143001 (FHS, GUHS, HHS, RLHS)
Grade: 12 Duration: Year (10 credits)
HS Grad Req: English UC/CSU a-g: B: English
Prerequisite: None
Course Description: “An AP course in English Language and Composition engages students in becoming skilled readers of prose written in a variety of rhetorical contexts, and in becoming skilled writers who compose for a variety of purposes. Both the writing and their reading make students aware of the interactions among a writer’s purposes, audience expectations, and subjects, as well as the way genre conventions and the resources of language contribute to effectiveness in writing.” – College Board
Note: Students who successfully pass the AP Language and Composition exam in the spring may be eligible for college credit.

English 9 Honors
112001 (FHS, GUHS, HHS, RLHS)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: English UC/CSU a-g: B: English
Prerequisite: None
Course Description: English 9 Honors is an advanced integrated curriculum of reading, writing, listening, speaking, and standard English language skills based on the California ELA Common Core State Standards and the California ELA/ELD Framework. English 9 Honors is intended to support and advance those students who possess the skills and desire for a more rigorous and challenging curriculum. It is also designed to prepare students for future enrollment in the Advanced Placement courses at the 11th and 12th grade levels. This is a rigorous course that will require substantial amounts of reading, writing, critical thinking, speaking, and homework, in addition to the standards-based instruction of the regular English 9 course.

English 9
111001 (All Schools)
HS Grad Req: English UC/CSU a-g: B: English
Grade: 9-12 Duration: Year (10 credits)
Prerequisite: None
Course Description: English 9 is an integrated curriculum of reading, writing, listening, speaking, and standard English language skills based on the California ELA Common Core State Standards and the California ELA/ELD Framework.

English 10
121001 (All Schools)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: English UC/CSU a-g: B: English
Prerequisite: None
Course Description: English 10 is an integrated curriculum of reading, writing, listening, speaking, and standard English language skills based on the California ELA Common Core State Standards and the California ELA/ELD Framework. Students will continue to apply and build upon the knowledge and skills acquired in the ninth grade.

English 10 Honors
122001 (FHS, GUHS, HHS, RLHS)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: English UC/CSU a-g: B: English
Prerequisite: None
Course Description: English 10 Honors is an advanced integrated curriculum of reading, writing, listening, speaking, and standard English language skills based on the California ELA Common Core State Standards and the California ELA/ELD Framework. English 10 Honors is intended to support and advance those students who possess the skills and desire for a more rigorous and challenging curriculum. It is also designed to prepare students for future enrollment in the Advanced Placement courses at the 11th and 12th grade levels. As such, this is a rigorous course that will require substantial amounts of reading, writing, critical thinking, speaking, and homework, in addition to the standards-based instruction of the regular English 10 course.
Course Descriptions – English

English 11
131001 (All Schools)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: English UC/CSU a-g: B: English
Prerequisite: None
Course Description: English 11 is an integrated curriculum of reading, writing, listening, speaking, and standard English language skills based on the California ELA Common Core State Standards and the California ELA / ELD Framework. Students will continue to apply and build upon the knowledge and skills acquired in the tenth grade.

English 11 Honors
132001 (HHS)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: English UC/CSU a-g: B: English
Prerequisite: None
Course Description: English 11 Honors is an advanced integrated curriculum of reading, writing, listening, speaking, and standard English language skills based on the California ELA Common Core State Standards and the California ELA/ELD Framework. English 11 Honors is intended to support and advance those students who possess the skills and desire for a more rigorous and challenging curriculum. It is also designed to prepare students for future enrollment in the Advanced Placement courses at the 12th grade level. As such, this is a rigorous course that will require substantial amounts of reading, writing, critical thinking, speaking, and homework, in addition to the standards based instruction of the regular English 11 course.

English 12 Honors
142001 (GUHS)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: English UC/CSU a-g: B: English
Prerequisite: None
Course Description: ELA 12 Honors is a course devoted to improving students’ ability to use 21st Century skills to analyze and respond to key pieces of World Literature in the canon. This is achieved through a focus on expository and analytical writing based on close readings of a variety of text types. The skills developed in this course are intended to provide students with a firm foundation for college-level English courses as well as career pathways. The course is organized by thematic units geared toward specific writing outcomes. These units include reading a variety of text types that support student application and production of specific texts of their own that address particular purposes and audiences. Through careful and purposeful study of world texts and issues, students will discover, identify, and analyze the strategies and techniques writers use to interpret the world in which they live. Through a variety of mentor texts students analyze not only the components of effective writing, but also the issues at hand in order to determine their own action steps to engage in the world beyond the classroom. Additionally, this course is designed to assist students with mastery of California’s Common Core State Standards.

CSU Expos Reading & Writing
14ERWC (CCAA, FHS, GUHS, HHS, PHS, RLHS, VNHS)
Grade: 12 Duration: Year (10 credits)
HS Grad Req: English UC/CSU a-g: B: English
Prerequisite: English 11
Course Description: The goal of the Expository Reading and Writing Course (ERWC) is to prepare college-bound seniors for the literacy demands of higher education. Students in this year-long, rhetoric-based course develop advanced proficiency in expository, analytical, and argumentative reading and writing. This course includes multiple reading selections on a topic, often representing different genres. Course texts include classic and contemporary works – both fiction and non-fiction – of varying lengths from a variety of sources and genres. This course not only satisfies the 4th year high school “a-g” English requirement, but also will address critical areas of the CSU English Placement Test.
English Language Development (ELD) 1A
114003 (offerings based on enrollment)
Grade: 9-12  Duration: Year (10 credits)
HS Grad Req: N/A  UC/CSU a-g: N/A
Prerequisite: None
Course Description: ELD 1A is a one period, yearlong course designed for new immigrants who have been enrolled in U.S. schools less than 12 months. This course must be taken in tandem with ELD 1B. ELD 1A is a comprehensive introduction to learning English language skills, using communication-based, content-based, and literature-based activities. Instruction focuses on oral/aural activities, intensive vocabulary development, and daily practice through collaborative interaction. Students are exposed to reading and writing through a variety of strategies appropriate to the beginning level of proficiency, with focus on developing both conversational and academic English language skills. These strategies, as well as shared and modeled reading and writing and encouraging students’ use of primary language, are used to develop literacy skills. Course activities and assignments are based on the state-adopted ELA/ELD framework at the emerging level.

English Language Development (ELD) 1B
114004 (offerings based on enrollment)
Grade: 9-12  Duration: Year (10 credits)
HS Grad Req: 1 year of English UC/CSU a-g: N/A
Prerequisite: None
Course Description: ELD 1B is a one period, yearlong course designed for new immigrants who have been enrolled in U.S. schools less than 12 months. This course must be taken in tandem with ELD 1A. It offers an additional class period of focused ELD instruction, intended to give newcomers the opportunity to build important developmental and foundational English language skills during their first year in this country. ELD 1B is a comprehensive introduction to learning English language skills, using communication-based, content-based, and literature-based activities. Instruction focuses on oral/aural activities, intensive vocabulary development, and daily practice through collaborative interaction. Students are exposed to reading and writing through a variety of strategies appropriate to the beginning level of proficiency, with focus on developing both conversational and academic English language skills. These strategies, as well as shared and modeled reading and writing and encouraging students’ use of primary language, are used to develop literacy skills. Course activities and assignments are based on the state-adopted ELA/ELD framework at the emerging level.

English Language Development (ELD) 1
114005 (offerings based on enrollment)
Grade: 9-12  Duration: Year
HS Grad Req: N/A  UC/CSU a-g: N/A
Prerequisite: None
Course Description: ELD 1 is a one period, yearlong course that provides a balanced approach to English language development, using communication-based, content-based, and literature-based activities. Instruction focuses on oral/aural activities to ensure comprehension of concepts and vocabulary. Students are introduced to reading and writing through a variety of strategies appropriate to the beginning level of proficiency. These strategies, as well as shared and modeled reading and writing and encouraging students’ use of primary language, are used to develop literacy skills. Course activities and assignments are based on the state-adopted ELA/ELD framework at the expanding level.

English Language Development (ELD) 2
114006 (offerings based on enrollment)
Grade: 9-12  Duration: Year (10 credits)
HS Grad Req: N/A  UC/CSU a-g: N/A
Prerequisite: None
Course Description: ELD 2 is a one period, yearlong course that continues the development of listening, speaking, reading, and writing skills with an increased focus on reading and writing. This course is intended to expand students’ abilities to access information presented in varying text types, through both individual and collaborative learning experiences. Reading, writing, and presenting opportunities reflect the level of English development, and the content extends the English language experiences of students. Students move from literal comprehension to interpretation of reading passages, and begin to identify idiomatic expressions in the English language. Course activities and assignments are based on the state-adopted ELA/ELD framework at the expanding level.
Course Descriptions – English Language Development

English Language Development (ELD) 3
114007 (offerings based on enrollment)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: N/A UC/CSU a-g: N/A
Prerequisite: None
Course Description: ELD 3 is a one period, yearlong course that continues the development of listening, speaking, reading, and writing skills with emphasis on the reading and writing processes. Students communicate ideas and information orally with increased confidence, demonstrating their understanding of various content, using different registers appropriately, and communicating comfortably in English. Students read and write in response to a variety of content, applying knowledge of language to derive meaning from text, and express themselves appropriately for varying audiences and purposes. This course helps students develop appropriate academic language and content knowledge, and encourages critical thinking and problem solving. Course activities and assignments are based on the state-adopted ELA/ELD framework at the bridging level.

Academic English Language Development (ELD)
114008 (offerings based on enrollment)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: N/A UC/CSU a-g: N/A
Prerequisite: None
Course Description: Note: Enrollment in this course is limited to long-term English learners (students who have been enrolled in U.S. schools for six or more years) who are performing at below grade-level expectations on standardized tests and who have ELPAC performance levels of 1 (Minimally Developed), 2 (Somewhat Developed) or 3 (Moderately Developed). Concurrent enrollment in the student’s grade-level English Language Arts course is required.

Core English Language Arts Standards for reading, writing, listening, speaking, and language, with the predominate focus being on academic speaking and critical writing skills. This course is intended to help students improve English language proficiency and reclassify before graduation.

Note: This course targets the linguistic and academic needs of long-term English learners who have not been able to attain the levels of English and academic proficiency necessary to succeed in standards-based coursework despite several years of ELD instruction. Skills and strategies are employed to support the language development of students, such as emphasizing oral language to build background and vocabulary. The course addresses the Common

Advanced Algebra with Financial Applications

Course Descriptions – Mathematics

Course: Advanced Algebra with Financial Applications
Course Code: 341002 (All Schools)
Grade: 11-12 Duration: Year (10 credits)
HS Grad Req: Alg/Integrated Math
UC/CSU a-g: C: Mathematics
Prerequisite: Algebra 1/ Integrated Math 1
Course Description: This course employs math concepts to solve financial problems that occur in everyday life. Real-world problems in investing, credit, banking, auto insurance, mortgages, employment, income taxes, budgeting, and planning for retirement are solved by applying the relevant mathematics.

AP Calculus AB

Course: AP Calculus AB
Course Code: 343AB5 (FHS, GUHS, HHS, RLHS)
Grade: 11-12 Duration: Year (10 credits)
HS Grad Req: Math
UC/CSU a-g: C: Mathematics
Prerequisite: Pre-Calculus
Course Description: Students will explore the key concepts, methods, and applications of single-variable calculus including functions, graphs, limits, derivatives, integrals, and the Fundamental Theorem of Calculus. Students will become familiar with concepts, results, and problems expressed in multiple ways including graphically, numerically, analytically, and verbally. The use of technology will help students solve problems, experiment, interpret results, and support conclusions. The course prepares students to take the Advanced Placement Calculus AB examination.

AP Calculus BC

Course: AP Calculus BC
Course Code: 343BC5 (GUHS, HHS, RLHS)
Grade: 11-12 Duration: Year (10 credits)
HS Grad Req: Math
UC/CSU a-g: C: Mathematics
Prerequisite: Pre-Calculus
Course Description: Students will explore the key concepts, methods, and applications of single-variable calculus including all topics covered in AP Calculus AB (functions, graphs, limits, derivatives, integrals, and the Fundamental Theorem of Calculus) as well as additional topics in differential and integral calculus such as parametric, polar and vector functions, and series. Students will become familiar with concepts, results, and problems expressed in multiple ways including graphically, numerically, analytically, and verbally. The use of technology will help students solve problems, experiment, interpret results, and support your conclusions. The course prepares students to take the Advanced Placement Calculus BC examination.

AP Statistics

Course: AP Statistics
Course Code: 343003 (CCAA, GUHS, HHS, RLHS)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: Math
UC/CSU a-g: C: Mathematics
Prerequisite: Integrated Math 2
Course Description: Students will learn about the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students will develop analytical and critical thinking skills as you learn to describe data patterns and departures from patterns, plan and conduct studies, use probability simulation to explore random phenomena, estimate population parameters, test hypotheses, and make statistical inferences. Related applications to psychology, social science, natural science, business, and engineering will be explored. The course prepares students to take the Advanced Placement Statistics examination.

Integrated Math 1

Course: Integrated Math 1
Course Code: 311001 (All Schools)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: Math
UC/CSU a-g: C: Mathematics
Prerequisite: None
Course Description: Integrated Mathematics 1 is the first of a three course sequence that formalizes and extends the mathematics that students learned in the middle grades. CCSS for mathematics has been organized into coherent units to help students see the connections and real applications of the different areas of mathematics. Integrated Mathematics 1 deepens and extends understanding of linear relationships, in part by contrasting them with exponential phenomena, and in part by applying linear models to data that exhibit a linear trend. Integrated Mathematics 1 uses properties and theorems involving congruent figures to deepen and extend understanding of geometric knowledge from prior grades. Units within the course include standards from the conceptual categories of Number and Quantity, Algebra, Functions, Geometry, and Statistics and Probability, and present them in an interconnected and coherent sequence. The Mathematical Practice Standards apply throughout each unit and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.
Course Descriptions – Mathematics

Integrated Math 2
321001 (All Schools)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: Math UC/CSU a-g: C: Mathematics
Prerequisite: Integrated Math 1
Course Description: Integrated Mathematics 2 is the second of a three course sequence that formalizes and extends the mathematics that students learned in the middle grades. CCSS for mathematics has been organized into coherent units to help students see the connections and real applications of the different areas of mathematics. Integrated Mathematics 2 focuses on quadratic expressions, equations and functions, and on comparing the characteristics and behavior of these expressions, equations, and functions to those of linear and exponential relationships from Mathematics I. The Mathematical Practice Standards apply throughout each unit and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of real world problem situations.

Integrated Math 2 Honors
322001 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: Math UC/CSU a-g: C: Mathematics
Prerequisite: Integrated Math 1
Course Description: Honors Integrated Mathematics 2 is the second of a three course sequence that formalizes and extends mathematics to prepare students for Advanced Placement courses after Honors Integrated Math 3.

Integrated Math 3
331001 (All Schools)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: Math UC/CSU a-g: C: Mathematics
Prerequisite: Integrated Math 2
Course Description: Integrated Mathematics 3 is the third of a three course sequence that extends the mathematics learned in earlier grades. Students completing Integrated Mathematics 3 will be prepared for a fourth year college preparatory math course. CCSS for mathematics has been organized into coherent units to help students see the connections and real applications of the different areas of mathematics. Integrated Mathematics 3 focuses on extending knowledge of polynomials that culminates in the Fundamental Theorem of Algebra. Students learn that arithmetic of rational expressions has the same rules as the arithmetic of rational numbers. Students synthesize what they learned about a variety of function families and extend work with exponential functions to use of logarithms. They explore the effects of transformations on graphs of diverse functions.

Integrated Math 3 Honors
332001 (All Schools)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: Math UC/CSU a-g: C: Mathematics
Prerequisite: Integrated Math 2
Course Description: The Honors Integrated Mathematics pathway is designed for students who have shown they are ready for an advanced course sequence that includes Plus Standards as well as Pre-Calculus Standards. In addition to topics taught in Integrated Mathematics 3, this honors course presents more extensive work in trigonometric functions and identities, inverse functions and representations of functions. Students completing Honors Integrated Mathematics 3 will be prepared for AP Calculus. CCSS for mathematics has been organized into coherent units to help students see the connections and real applications of the different areas of mathematics. Integrated Mathematics 3 focuses on extending knowledge of polynomials that culminates in the Fundamental Theorem of Algebra. Students learn arithmetic of rational expressions have the same rules as the arithmetic of rational numbers. Students synthesize what they learned about a variety of function families and extend work with exponential functions to use of logarithms. They explore the effects of transformations on graphs of diverse functions.
Course Descriptions – Mathematics

Students develop the Laws of Sines and Cosines in order to find missing measures of general triangles. Trigonometry applied beyond the right triangle builds to the idea of radian measure for angles and extend the domain of the trigonometric functions to all real numbers. Students relate to different types of data, probability distributions, and different ways of collecting data from previous courses. Students extend their understanding of modeling in the context of functions, parameters and domains of functions. The Mathematical Practice Standards apply throughout each unit and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of real world problem situations.

Pre-Calculus
341005 (FHS, GUHS, HHS, RLHS)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: Math UC/CSU a-g: C Mathematics
Prerequisite: Integrated Math 2
Course Description: This course combines many of the trigonometric, geometric, and algebraic techniques needed to prepare students for the study of calculus and other advanced courses. The course brings a measure of closure to some topics first brought up in earlier courses, such as Integrated Math II. The functional viewpoint is emphasized in this course. Key concepts include mathematical induction, the roots of polynomials, conic sections, and limits. The trigonometry involves using the techniques previously learned from the study of algebra and geometry. Further study in trigonometric functions will also include the ability to prove basic identities. The Honors section of this course expands the depth and complexity of the content.

Statistics
341003 (FHS, GUHS, PHS, RLHS)
Grade: 12 Duration: Year (10 credits)
HS Grad Req: Math UC/CSU a-g: C Mathematics
Prerequisite: Integrated Math 2
Course Description: This course will introduce basic concepts of probability and statistics. It will include an analysis of data probability, distributions tests of hypothesis estimation regression, and correlation and analysis of variance. Related applications to psychology, social science, natural science, business, and engineering will be explored.

Pre-Calculus Honors
342004 (GUHS)
Grade: 9-12 Duration: Year (10 credits)
HS Grad Req: Math UC/CSU a-g: C Mathematics
Prerequisite: Integrated Math 2
Course Description: This course combines many of the trigonometric, geometric, and algebraic techniques needed to prepare students for the study of calculus and other advanced courses. The course brings a measure of closure to some topics first brought up in earlier courses, such as Integrated Math II. The functional viewpoint is emphasized in this course. Key concepts include mathematical induction, the roots of polynomials, conic sections, and limits. The trigonometry involves using the techniques previously learned from the study of algebra and geometry. Further study in trigonometric functions will also include the ability to prove basic identities.

American Government
241004 (All Schools)
Grades: 9-12 Duration: Semester (5 credits)
HS Grad Req: Govern UC/CSU a-g: A: History
Prerequisite: None
Course Description: Students in grade twelve pursue a deeper understanding of the institutions of American government. They compare systems of government in the world today and analyze the history and changing interpretations of the Constitution, the Bill of Rights, and the current state of the legislative, executive, and judiciary branches of government.

AP European History
223009 (FHS, GUHS, HHS)
Grades: 10 Duration: Year (10 credits)
HS Grad Req: W. History UC/CSU a-g: A: History
Prerequisite: None
Course Description: The study of European history since 1450 introduces students to cultural, economic, political, religious, and social developments that played a fundamental role in shaping the world in which they live. In addition to providing a basic narrative of events and movements, the goals of the AP program in European History are to develop (1) an understanding of some of the principle themes in modern European History, (2) an ability to analyze historical evidence and historical interpretation, and (3) an ability to express historical understanding in writing. *All students enrolled in AP Social Science classes are expected to take the AP Exam for the course.

AP Human Geography
213007 (GUHS)
Grades: 9-12 Duration: Semester (5 credits)
HS Grad Req: Electives UC/CSU a-g: A: History
Prerequisite: None
Course Description: AP Human Geography (APHG) introduces students to the systematic study of the patterns and processes that have shaped human understanding, use, and alteration of the Earth’s surface. Students will make use of spatial concepts and landscape analysis to examine human social organization and its environmental consequences. They also learn about the methods and tools that geographers use in applying their science and practices. APHG allows students the opportunity to learn about world population issues, political border disputes, and international conflicts. In addition, students study about cultural traditions around the world, including world religions, ethnicities, and the origins and diffusions of languages. Students will study both rural land use and urban spaces including agricultural practices, economic development, energy use, industrialization, and city planning. APHG prepares students for intermediate and advanced level college courses by making demands upon them equivalent to those made by a one-semester introductory level college course. Students must be able to draw upon factual knowledge in order to exercise analytic skills intelligently. Solid reading and writing skills, along with a willingness to devote time to independent reading, homework, and study are necessary to succeed.

AP US Government and Politics
243004 (FHS, GUHS, HHS, RLHS)
Grades: 9-12 Duration: Semester (5 credits)
HS Grad Req: Govern UC/CSU a-g: A: History
Prerequisite: None
Course Description: The AP United States Government & Politics course provides an analytical perspective on government and politics in the United States. This course involves both the study of general concepts used to interpret U.S. politics and the analysis of specific case studies. It also requires familiarity with the various institutions, groups, beliefs, and ideas that constitute U.S. political reality. An emphasis is placed on analyzing the relationship among federal, state, and local governments, with particular attention paid to important historical documents such as the Federalist Papers. These standards represent the culmination of civic literacy as students prepare to vote, participate in community activities, and assume the responsibilities of citizenship. *All students enrolled in AP Social Science classes are expected to take the AP Exam for the course.

AP Macroeconomics
243003 (FHS, GUHS, HHS, RLHS)
Grades: 11-12 Duration: Semester (5 credits)
HS Grad Req: Econ UC/CSU a-g: G: Electives
Prerequisite: None
Course Description: AP Macroeconomics is designed to give students a thorough understanding of the principles of economics that apply to an economic system as a whole. There is particular emphasis placed on the study of national income and price determination. Macroeconomics describes the financial environment we all live in as well as the impact of government decisions on both the individual and the business community. *All students enrolled in AP Social Science classes are expected to take the AP Exam for the course.
AP United States History

233002 (FHS, GUHS, HHS, RLHS)

Grades: 11-12  Duration: Year (10 credits)
HS Grad Req: US History  UC/CSU a-g: A: History
Prerequisite: None

Course Description: AP United States History is designed to provide students with the analytical skills and factual knowledge necessary to deal critically with the problems and materials from the pre-Columbian era to the present. Students will learn to assess historical materials - their relevance to a given interpretive problem, their reliability, and their importance - and to weigh the evidence and interpretations presented in historical scholarship. The AP United States History course will thus develop the skills necessary to arrive at conclusions on the basis of an informed judgment and to present reasons and evidence clearly and persuasively in an essay format.

*All students enrolled in AP Social Science classes are expected to take the AP Exam for the course.

Economics

241003 (All Schools)

Grades: 11-12  Duration: Semester (5 credits)
HS Grad Req: Econ  UC/CSU a-g: G: Electives
Prerequisite: None

Course Description: This course enables students to function more effectively in our economy as participating citizens, productive workers, and informed consumers. Through simulation activities, group and individual projects, as well as lecture and discussion, students learn economic reasoning skills and decision making. Studied in a historic context are the basic economic principles of micro and macroeconomics, international economics, comparative economic systems, measurement, and methods.

Geography

211007 (GUHS)

Grades: 9-12  Duration: Semester (5 credits)
HS Grad Req: Electives  UC/CSU a-g: N/A
Prerequisite: None

Course Description: Geography includes the study of the Earth's physical features, as well as the ways in which humans interact with and alter the world around them. Each major region of the world will be studied. The course will emphasize developing critical reading and writing skills, as well as map interpretation. The World Geography course will prepare students for future consideration in such social science courses as Advanced Placement (AP) World History and AP United States History.

Psychology

231005 (RLHS)

Grades: 10-12  Duration: Semester (5 credits)
HS Grad Req: Electives  UC/CSU a-g: G: Electives
Prerequisite: None

Course Description: This course is an introduction to the field of psychology with an emphasis on mental health. Units of study include: theories and controversies in current practice in the field, quackery and rip-offs, defensive behaviors, inferiority complexes, neurotic personalities, peer groups, generation gap, dating, sexual adjustment, popularity, suicide, drug usage, severe mental illness/psychosis, and current treatments. Student-centered activities and goals are determined under the direction and supervision of the teacher. This course is designed to be paired with Sociology.
Course Descriptions – Social Science

Race and Social Justice  
231SJ2 (CCAA, GUHS, PHS, VNHS)  
Grades: 10-12 Duration: Year (10 credits)  
HS Grad Req: U.S. History UC/CSU a-g: A: History  
Prerequisite: None  
Course Description: This course is designed to meet the standards by viewing U.S. History through different perspectives. This course looks at the role different races, minorities, and ethnicities played in history. For example, rather than simply discussing the effect of the Great Depression on Americans in general, we will look at the case of the Scottsboro Boys, and how it related to the social effects and politics of the Great Depression. Students will be trained to design and complete a group research project. This project will take a historical issue in race relations and apply it to a contemporary event or issue in students’ lives.

Sociology  
231006 (RLHS)  
Grades: 11-12 Duration: Semester (5 credits)  
HS Grad Req: Electives UC/CSU a-g: G: Electives  
Prerequisite: None  
Course Description: Students are introduced to the science of sociology, its famous founders, and modern schools of thought. Topics include cultural conformity, group dynamics, anti-social and criminal behavior, and social phenomena such as family dynamics, gender bias, discrimination, and social stratification.

US History 11  
231002 (All Schools)  
Grades: 11-12 Duration: Year (10 credits)  
HS Grad Req: U.S. History UC/CSU a-g: A: History  
Prerequisite: None  
Course Description: U.S. History focuses on our nation’s beginnings and the impact of the Enlightenment on U.S. democratic ideals. Students will learn about the major turning points in American history throughout the latter half of the 19th century and 20th century. Students will examine the major political, social, economic, technological, and cultural developments throughout this time period up to the present day. They consider the major social problems of our time and trace their causes in historical events. Students understand that our rights under the U.S. Constitution are a precious inheritance that depends on an educated citizenry for their preservation and protection.

World History 10  
221001 (All Schools)  
Grades: 10 Duration: Year (10 credits)  
HS Grad Req: W. History UC/CSU a-g: A: History  
Prerequisite: None  
Course Description: Students in grade 10 study major turning points that shaped the modern world from the late eighteenth century through the present, including the cause and course of the two world wars. They trace the rise of democratic ideas and develop an understanding of the historical roots of current world issues, especially as they pertain to international relations. They extrapolate from the American experience that democratic ideals are often achieved at a high price, remain vulnerable, and are not practiced everywhere in the world. Students develop an understanding of current world issues and relate them to their historical, geographic, political, economic, and cultural contexts. Students consider multiple accounts of events in order to understand international relations from a variety of perspectives.

**Project Lead the Way (PLTW)**

*PLTW pathways are open to all students; however, students must take a sequence of courses to participate in these classes. Please see your child’s counselor if you are interested in taking these courses.*
Anatomy and Physiology
431005 (GUHS, RLHS)
Grade: 10-12 Duration: Year
HS Grad Req: Life Sci UC/CSU a-g: D: Lab Sci
Prerequisite: Biology
Course Description: Anatomy and Physiology provides students an opportunity to explore the intricate and sophisticated relationship between structure and function in the human body. Laboratory activities reinforce concepts and principles presented in the course.

AP Biology
443002 (FHS, HHS, RLHS, CCAA, GUHS)
Grade: 10-12 Duration: Year
HS Grad Req: Life Sci UC/CSU a-g: D: Lab Sci
Prerequisite: Bio, Chemistry Recommended
Course Description: AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry-based investigations. LABORATORY REQUIREMENT: This course requires that 25 percent of the instructional time will be spent in hands-on laboratory work. Students who pass the AP exam have the opportunity to earn credit or advanced standing at most of the nation’s colleges and universities.

AP Chemistry
433002 (GUHS, RLHS)
Grade: 10-12 Duration: Year
HS Grad Req: Phy. Sci UC/CSU a-g: D: Lab Sci
Prerequisite: Integrated Math 1/Alg 1
Course Description: The AP Chemistry course provides students with a college-level foundation to support future advanced course work in chemistry. Students cultivate their understanding of chemistry through inquiry based investigations. LABORATORY REQUIREMENT: This course requires that 25 percent of the instructional time will be spent in hands-on laboratory work. Students who pass the AP exam have the opportunity to earn credit or advanced standing at most of the nation’s colleges and universities.

AP Environmental Science
443004 (GUHS, FHS)
Grade: 10-12 Duration: Year
HS Grad Req: Life Sci UC/CSU a-g: D: Lab Sci
Prerequisite: Biology and One Phy. Science
Course Description: The AP Environmental Science course is designed to be the equivalent of a one-semester, introductory college course in environmental science, through which students engage with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world. Environmental Science is interdisciplinary, embracing topics from geology, biology, environmental studies, environmental science, chemistry, and geography. LABORATORY REQUIREMENT: Although there are no specific AP Environmental Science labs or field investigations required for the course, it is expected that students perform as many labs/field investigations as possible. All students enrolled in this course are expected to take the Advanced Placement Environmental Science examination. Students who pass the AP exam have the opportunity to earn credit or advanced standing at most of the nation’s colleges and universities.

AP Physics C: Mechanics
4430C1 (GUHS)
Grade: 11-12 Duration: Year
HS Grad Req: Phy. Sci UC/CSU a-g: D: Lab Sci
Corequisite: Integrated Math 2
Course Description: AP Physics C: Mechanics is equivalent to a one-semester, calculus-based, college level physics course, especially appropriate for students planning to specialize or major in physical science or engineering. LABORATORY REQUIREMENT: This course includes a hands-on laboratory component comparable to a semester-long introductory college level physics laboratory. Students should spend a minimum of 20 percent of instructional time engaged in hands-on laboratory work. All students enrolled in this course are expected to take the Advanced Placement Physics C: Mechanics examination. Students who pass the AP exam have the opportunity to earn credit or advanced standing at most of the nation’s colleges and universities.
**AP Physics 1**  
443003 (GUHS, RLHS)  
**Grade:** 10-12  
**Duration:** Year  
**HS Grad Req:** Phy. Sci  
**UC/CSU a-g:** D: Lab Sci  
**Corequisite:** Integrated Math 2  
**Course Description:** AP Physics 1 is an algebra-based, introductory college level physics course. Students cultivate their understanding of physics through inquiry-based investigations.  
**LABORATORY REQUIREMENT:** This course requires that 25 percent of the instructional time will be spent in hands-on laboratory work. All students enrolled in this course are expected to take the Advanced Placement Physics 1 examination. Students who pass the AP exam have the opportunity to earn credit or advanced standing at most of the nation’s colleges and universities.  

**AP Physics 2**  
443005 (RLHS)  
**Grade:** 10-12  
**Duration:** Year  
**HS Grad Req:** Phy Sci  
**UC/CSU a-g:** D: Lab Sci  
**Prerequisite:** Integrated Math 1, Living Earth  
**Course Description:** AP Physics 2 is an algebra-based introductory college-level physics course. Students cultivate their understanding of Physics through inquiry-based investigations as they explore topics such as fluid statics and dynamics; thermodynamics with kinetic theory; PV diagrams and probability; electrostatics; electrical circuits with capacitors; magnetic fields; electromagnetism; physical and geometric optics; and quantum atomic and nuclear physics.  
**LABORATORY REQUIREMENT:** This course requires that 25 percent of the instructional time will be spent in hands-on laboratory work with an emphasis on inquiry based investigations that provide students with opportunities to apply the science practices. All students enrolled in this course are expected to take the Advanced Placement Physics 2 examination.  

**Chemistry in the Earth System**  
421003 (CCAA, FHS, GUHS, HHS, RLHS)  
**Grade:** 10-12  
**Duration:** Year  
**HS Grad Req:** Science  
**UC/CSU a-g:** D: Lab Science, Physical Science  
**Prerequisite:** Integrated Math 1, Living Earth  
**Course Description:** Students will investigate the formation of the first elements and their transformation to heavier elements in the context of stars as nuclear element factories. They will use this knowledge to explore the structure of an atom and patterns in the periodic table. Students will investigate the forces that hold matter together and how society uses its understanding of elements and molecules to develop useful materials. Students will explore the interactions of atoms and molecules as illustrated by chemical reactions. Students will investigate Earth’s atmosphere and climate system. Students will explore the factors that drive chemical and physical changes based on their understanding of elements and materials science. They will examine connections between matter and energy into and out of chemical systems, extending the concept to the movement of energy through Earth’s systems and ways humans may control these moments. Students will investigate these concepts in the context of greenhouse gases, their effect on the atmosphere, and the stability and changes of the chemistry of the ocean and other bodies of water on Earth.
Course Descriptions – Sciences and Health

Chemistry in the Earth System Honors
422005
Grade: 10-12 Duration: Year
HS Grad Req: Science UC/CSU a-g: D: Lab Science, Physical Science
Prerequisite: Integrate Math 1, Living Earth
Course Description: In the honors course, increased rigor in the science, application of mathematics and work expected of students to complete independently will be increased. Students will investigate the formation of the first elements and their transformation to heavier elements in the context of stars as nuclear element factories. They will use this knowledge to explore the structure of an atom and patterns in the periodic table. Students will investigate the forces that hold matter together and how society uses its understanding of elements and molecules to develop useful materials. Students will explore the interactions of atoms and molecules as illustrated by chemical reactions. Students will investigate Earth’s atmosphere and climate system. Students will explore the factors that drive chemical and physical changes based on their understanding of elements and materials science. They will examine connections between matter and energy into and out of chemical systems, extending the concept to the movement of energy through Earth’s systems and ways humans may control these moments. Students will investigate these concepts in the context of greenhouse gases, their effect on the atmosphere, and the stability and changes of the chemistry of the ocean and other bodies of water on Earth.

Health Science
611001 (All Schools)
Grade: 9-12 Duration: Semester
HS Grad Req: Health UC/CSU a-g: N/A
Prerequisite: None
Course Description: Health Science is a graduation requirement. This course is also designed to meet the state requirement of providing HIV/AIDS prevention that is complete, medically accurate, and free of bias. From state and board-approved curriculum, students will obtain accurate information to develop health literacy and lifelong positive attitudes and behaviors related to their personal health. Study will also include community health; mental, emotional and social health; injury prevention and safety; nutrition and physical activity; alcohol, tobacco, and other drugs; growth, development, and sexual health.

Physics
413003 (FHS, GUHS, HHS)
Grade: 10-12 Duration: Year
HS Grad Req: Phy. Sci UC/CSU a-g: D: Lab Sci
Prerequisite: Integrated Math 1/Alg 1
Course Description: This course is a standards-based study of fundamental physics concepts. Emphasis is placed on the utilization of mathematical, analytical, data acquisition, graphical, and communication skills as well as interdisciplinary approaches to discovery. Concepts and skills are reinforced by a strong emphasis on hands-on laboratory experiences and the integration of other branches of science.

The Living Earth
411001 (All Schools)
Grade: 9-12 Duration: Year
HS Grad Req: Life Sci UC/CSU a-g: D: Lab Sci
Course Description: The Living Earth is a college preparatory, lab science class. In this class, students deepen their understanding of biological core ideas and study the influence of current and past Earth systems on organisms. The course covers six major units: Ecosystems, History of Earth, Evolution, Inheritance, Structure Function and Growth, and Ecosystem Stability and Climate Change. Inquiry-driven laboratory exercises are an integral part of the curriculum.

Course Descriptions – Languages Other Than English

AP French
811003 (RLHS)
Grades: 11-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language
UC/CSU a-g: E: LOTE
Prerequisite: French 3
Course Description: The AP French Language and Culture course emphasizes communication (understanding and being understood by others) by applying interpersonal, interpretive, and presentational skills in real-life situations. This includes vocabulary usage, language control, communication strategies, and cultural awareness. The AP French Language and Culture course strives not to overemphasize grammatical accuracy at the expense of communication. To best facilitate the study of language and culture, the course is taught almost exclusively in French.

AP Spanish Language
833001 (FHS, GUHS, HHS, RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language
UC/CSU a-g: E: LOTE
Prerequisite: Spanish 3 or Spanish NS 2
Course Description: The AP Spanish Language and Culture course emphasizes communication. This includes vocabulary usage, language control, communication strategies, and cultural awareness. The AP Spanish Language and Culture course strives not to overemphasize grammatical accuracy at the expense of communication. To best facilitate the study of language and culture, the course is taught almost exclusively in Spanish. The course develops students’ awareness and appreciation of cultural products (e.g., tools, books, music, laws, conventions, institutions); practices (patterns of social interactions within a culture); and perspectives (values, attitudes, and assumptions).

AP Spanish Literature
843001 (GUHS, RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU a-g: E: LOTE
Prerequisite: None
Course Description: The AP Spanish Literature and Culture course uses a thematic approach to introduce students to representative texts (short stories, novels, poetry, and essays) from Peninsular Spanish, Latin American, and United States Hispanic literature. Students develop proficiencies across the full range of communication modes (interpersonal, presentational, and interpretive), thereby honing their critical reading and analytical writing skills. Literature is examined within the context of its time and place, as students reflect on the many voices and cultures present in the required readings. The course also includes a strong focus on cultural connections and comparisons, including exploration of various media (e.g., art, film, articles, literary criticism).

French 1
811003 (RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU a-g: E: LOTE
Prerequisite: None
Course Description: Students will understand, speak, read and write French. French will be used with daily class routine. Lessons center on familiar situations, meeting people, friends, school, family, etc. A study of the various aspects of the French culture will be included.

French 2
821003 (RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU a-g: E: LOTE
Prerequisite: French 1
Course Description: Students will improve their communication through dialogues, oral presentations and group activities. French II is taught in French. Increased emphasis will be placed on comprehension, expression, reading, and writing. A continued study of the French culture is included.
French 3
831003 (RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language
UC/CSU a-g: E: LOTE
Prerequisite: French 2
Course Description: The goal of the course is to communicate well in French. Communication skills are further developed. Students work on projects individually and in group. Greater emphasis is placed on history, culture, and literature in the language.

Hmong 1 Native Speaker
811004 (GUHS, RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU a-g: E: LOTE
Prerequisite: None
Course Description: Hmong 1 NS is tailored to students whose primary language is Hmong. Vocabulary and grammatical structures will be presented through thematic units with an emphasis on oral, listening, reading, and writing expressions. Students will develop an appreciation for the Hmong culture and its influence throughout the world.

Hmong 2 Native Speaker
821004 (GUHS, RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU a-g: E: LOTE
Prerequisite: Hmong 1 NS
Course Description: Hmong 2 is an introduction to the language. Vocabulary and grammatical structures will be presented through thematic units with an emphasis on oral, listening, reading, and writing expressions. Students will develop an appreciation for the Hmong culture and its influence throughout the world.

Hmong 3 Native Speaker
831004 (GUHS, RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU a-g: E: LOTE
Prerequisite: Hmong 2 NS
Course Description: This class will expand on concepts learned in Hmong 3 for Native Speakers. It will continue to focus on the specific necessities of the Hmong speaking student with respect to accents, orthography, grammar, literature, cultures, and geography of the Hmong Speaking regions around the world.

Spanish 1
811001 (CCAA, FHS, HHS, GUHS, PHS, RLHS, VNHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language
UC/CSU a-g: E: LOTE
Prerequisite: None
Course Description: This course focuses on communication in Spanish by speaking, reading, writing, and understanding written and spoken Spanish. Students will study the countries and cultures where Spanish is spoken and will make comparisons and connections with their own. The course will be conducted primarily in Spanish. Homework is assigned daily. Credits may be used toward the Creative Connections Arts Academy Charter High School World Language graduation requirement and for UC and CSU language other than English admission requirements.

Spanish 1 Native Speaker
811002 (FHS, GUHS, RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language
UC/CSU a-g: E: LOTE
Prerequisite: None
Course Description: This course is designed for students who speak and listen to Spanish at home; they can produce the language and understand oral and written instructions in Spanish. Students will be taught reading and writing skills. The class will focus on the specific necessities of the Spanish-speaking student with respect to accents, orthography, grammar, literature, cultures, and geography of the Spanish-speaking countries.

Spanish 2
821001 (CCAA, FHS, GUHS, HHS, RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU a-g: E: LOTE
Prerequisite: Spanish 1
Course Description: Designed for college preparatory students. The major emphasis of these courses is to continue to develop personal communication skills in the target language. Students will have additional opportunities to increase their abilities in the areas of: speaking, listening, comprehension, reading and writing. Curriculum includes: continued emphasis on speaking the language, the study of expanded thematic vocabulary, expressing simple past actions, short writing assignments, and reading authentic materials. Students will increase their cross cultural understanding.
Spanish 2 Native Speaker
821002 (FHS, GUHS, RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU a-g: E: LOTE
Prerequisite: Spanish 1 NS or Teacher Approval
Course Description: Designed for college preparatory students. The major emphasis of these courses is to continue to develop personal communication skills in the target language. Students will have additional opportunities to increase their abilities in the areas of: speaking, listening, comprehension, and reading and writing. Curriculum includes: continued emphasis on speaking the language, the study of expanded thematic vocabulary, expressing simple past actions, short writing assignments, and reading authentic materials. Students will increase their cross cultural understanding.

Spanish 3
831001 (FHS, GUHS, HHS, RLHS, CCAA)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU a-g: E: LOTE
Prerequisite: Spanish 2
Course Description: This course expands on the content of Spanish 2. Students will learn to form and use verbs in the preterit, imperfect, present, subjunctive, future, conditional, progressive and perfect tenses; read, translate, and show understanding of literature, and use verbs like gustar, saber, and conocer; learn about and to appreciate the culture and contributions of the Spanish-speaking world, the structure of the Spanish language, phrases, expressions and approximately 1,000 vocabulary words.

Spanish 4
841001 (GUHS, RLHS)
Grades: 9-12 Duration: Year (10 credits)
HS Grad Req: Foreign Language UC/CSU: a-g E: LOTE
Prerequisite: Spanish 3
Course Description: This course expands on the content in Spanish 3. Students will learn to form and use verbs in the preterit, imperfect, present, subjunctive, future, conditional, progressive and perfect tenses; read, translate, and show understanding of literature, and use verbs like gustar, saber, and conocer; learn about and to appreciate the culture and contributions of the Spanish-speaking world, the structure of the Spanish language, phrases, expressions and approximately 1,000 vocabulary words.

3 Dimensional Design
511010 (All Schools)
Grades: 9-12
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
Course Description: The studio focus will be on creating and presenting artwork with 3-dimensional media. Students will refine skills and sculptural processes while beginning to develop their own artistic style in the media arts. Students will deepen their societal, cultural, and historical knowledge of the arts by analyzing, interpreting, and relating that knowledge and personal experiences when making artistic works. Studio projects will require students to work at an independent and mature level and will culminate in a portfolio of their artwork.

3D Design Advanced
521010 (GUHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: 3D Design
Course Description: This intermediate course is designed for students who wish to continue their studies of the visual arts at a more advanced level and builds on the 3D Design I course. The studio focus will continue to be on 3-dimensional media, allowing students to continue to refine skills and art techniques while developing their own artistic style. Students will continue to deepen their historical and cultural knowledge of the arts. Studio projects will require students to work at a more independent and mature level and will culminate in a portfolio of their artistic work that may be used in AP Studio Art or postsecondary admission.

AP Studio Art
513001 (HHS, RLHS)
Grades: 11-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: Advanced Art
Course Description: This advanced course is designed for students who are seriously interested in the practical experience of art and builds on the Advanced Art and/or Advanced Ceramics course. The studio focus will follow the College Board’s AP Studio Art portfolio standards for performance in the visual arts. The course will address three major concerns that are constants in art: (1) the student’s ability to recognize quality in her or his work, (2) the student’s concentration on a sustained investigation of a particular visual interest or problem, and (3) a range of approaches to the formal, technical, and expressive means of the artist. Students may choose to submit their portfolio of work for evaluation by the College Board as an AP Studio Portfolio in Drawing or 2D Design to earn college credit and/or advanced placement.

Art Beginning
511001 (All Schools)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
Course Description: During this foundation course in the visual arts, students will develop artistic and critical thinking skills through a wide array of creative and fine arts processes. Based on the National Core Arts Standards and the CA Frameworks for the Visual and Performing Arts, students will create and present original art works using 2-dimensional and 3-dimensional media, both traditional and emerging. Students will respond to artistic work created by others to interpret meaning and connect ideas within their societal, cultural, and historical contexts. As part of their study, students will develop their individual artistic portfolio and sketchbook.

Art Intermediate
521001 (HHS)
Grades: 10-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: Art Beg 9-12
Course Description: This course is designed for students who wish to continue their studies of the visual arts at a more in-depth level and builds on the Beginning Art course. The studio focus will be on creating and presenting artwork with 2-dimensional media, both traditional and emerging. Students will continue to refine skills and art techniques while beginning to develop their own artistic style. Students will deepen their societal, cultural, and historical knowledge of the arts by analyzing, interpreting, and relating that knowledge and personal experiences when making artistic works. Studio projects will require students to work at a more independent and mature level and will culminate in a portfolio of their artwork and sketchbook.
Art Advanced
531001 (All Schools)
Grades: 10-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: Intermediate Art
Course Description: This course is designed for students who wish to continue their studies of the visual arts at a more in-depth level and build on the Art course. The studio focus will be on creating and presenting artwork with 2-dimensional media, both traditional and emerging. Students will continue to refine skills and art techniques while beginning to develop their own artistic style. Students will deepen their societal, cultural, and historical knowledge of the arts by analyzing, interpreting, and relating that knowledge and personal experiences when making artistic works. Studio projects will require students to work at a more independent and mature level and will culminate in a portfolio of their artwork and sketchbook.

Band Beginning 9 - 12
511005 (CCAA, FHS, GUHS, RLHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
Course Description: This course serves as a prerequisite to the Concert Band. Playing in parts is introduced and is employed in music from .5-1.0 in difficulty. Emphasis is placed on learning to read music, tone production, phrasing, breath control, articulation, reading, the fundamentals of music theory, and concert performance.

Band Concert 9 - 12
521005 (CCAA, FHS, GUHS, RLHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: Beg Band or Teacher Approval
Course Description: This course is an intermediate instrumental music ensemble and requires the permission of the instructor to enter the class. This course serves as a prerequisite to the Symphonic Band. Grade 2 - 3 literature will be used in this course. Emphasis will be placed on intonation, continued studies in reading music, balance/blend, tone production, articulation, and developing techniques. Performance in festivals and other public performances are required for successful completion of this course.

Band Jazz
531005 (GUHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: N/A
Prerequisite: Teacher Approval
Course Description: This course is designed to train the musician in all styles of jazz music. The objectives of the course are to establish the highest degree of technique, musicianship, and ensemble playing possible. Jazz band is a performing group. Students in this ensemble are required to perform many times throughout the year. This includes several music festivals, recording, and music tours. Attendance is required.

Band Symphonic 9 - 12
541005 (FHS, RLHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: Concert Band or Teacher Approval
Course Description: The symphonic band studies compositions of various types ranging from grade 2 – 4. The band participates in a variety of activities such as sporting events, concerts, parades, etc., and attendance at these performances is required. The basic aims of the course are to develop better musicianship and intelligent understanding of music, and to improve the technical proficiency of the individual student. Students in this ensemble are required to perform many times throughout the year. This includes several music festivals, recording, and music tours. Attendance is required.

Ceramics Beginning
511002 (HHS, FHS, GUHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
Course Description: This is an introductory course designed to cover 3-dimensional design using clay as the medium. Students will learn how to use appropriate tools and techniques to produce variations of basic pinch, coil, slab, thrown, or sculptured forms. Clay preparation, construction, surface design, and firing will be explored. Students will understand the relationship between the history of ceramic forms and media.
Ceramics Advanced
531002 (FHS, GUHS, HHS)
Grades: 10-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: Intermediate Ceramics
Course Description: This advanced course is designed for students who wish to continue their studies of the visual arts at a more advanced level and builds on the Intermediate Ceramics course. The studio focus will continue to be on the medium of clay, allowing students to continue to refine skills and art techniques while developing their own artistic style. Students will continue to deepen their historical and cultural knowledge of the arts. Studio projects will require students to work at a more independent and mature level and will culminate in a portfolio of their artistic work that may be used in AP Studio Art or post-secondary admission.

Choir
511004 (CCAA, FHS, HHS, GUHS, PHS, RLHS, VNHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
Course Description: This is an entry-level choir and is open to anyone interested in learning to sing. This course serves as a prerequisite to Advanced Choir. It offers study in the performance of vocal music at the beginning levels. Emphasis is placed on learning to read music, tone production, breath control, phrasing, diction, fundamentals of music theory, and cultural values of music. Music studied will be of easy to medium easy (grade level 0.25 through grade level 1.5). Many style periods will be explored. Concert performance and attendance is required.

Choir Advanced
531004 (CCAA, FHS, HHS, GUHS, RLHS, VNHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: Choir or Teacher Approval
Course Description: Choir Advanced offers study in the performance of vocal music at the intermediate levels. Emphasis is placed on continuing to learn to read music, tone production, breath control, phrasing, diction, fundamentals of music theory, and the students’ appreciation of the aesthetic and cultural values of music. Music studied will be of easy to medium easy (grade level 1.0 through grade level 2.5). Many style periods will be explored. Students will be required to perform at both school concerts and music festivals throughout the year.

Dance 1
511009 (CCAA)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
Course Description: This course is an introduction to dance where students learn foundational skills in dance technique, choreography, and performance. Students will gain knowledge of ballet, jazz, modern and cultural dance techniques. Study of dance includes dance history, movement concepts, and dance terminology. Students have opportunities to perform in class and on stage, gaining experience in stage production and dance etiquette.

Dance 2
521009 (CCAA)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
Course Description: This is an advanced level course for the serious dance student who is possibly interested in a performing career. Students will learn different dances from various choreographers giving them a much needed versatility. The student must demonstrate a proficiency in dance technique and the ability to work as a performer in various styles from classical and modern.

Drama Beginning
511003 (CCAA, FHS, GUHS, HHS, RLHS)
Grades: 9-10 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
Course Description: This course is designed to help the beginning student acquire a proficiency in stage performance, an appreciation for and ability to analyze stage and screen plays, and an understanding of the history of drama, TV, and film and how they reflect and impact human cultures and civilization.
### Drama Intermediate

**Course Code:** 521003 (CCAA, FHS, GUHS, HHS, RLHS)  
**Grades:** 10-12  
**Duration:** Year  
**HS Grad Req:** Fine Art  
**UC/CSU a-g:** F: Fine Art  
**Prerequisite:** Drama Beginning  
**Course Description:** This course is designed to help the continuing student acquire a proficiency in stage performance, an appreciation for and ability to analyze stage and screen plays, and an understanding of the history of drama, TV, and film and how they reflect and impact human cultures and civilization.

### Drama Advanced

**Course Code:** 531003 (FHS, RLHS, GUHS)  
**Grades:** 11-12  
**Duration:** Year  
**HS Grad Req:** Fine Art  
**UC/CSU a-g:** F: Fine Art  
**Prerequisite:** Drama Beginning, Drama Intermediate  
**Course Description:** This course is designed to help the advanced student develop proficiency in stage performance, an appreciation for and ability to analyze stage and screen plays, and an understanding of the history of drama, TV, and film, and how they reflect and impact human cultures and civilization.

### Guitar Beginning

**Course Code:** 511008 (CCAA, FHS, RLHS, VNHS)  
**Grades:** 7-12  
**Duration:** Year  
**HS Grad Req:** Fine Art  
**UC/CSU a-g:** F: Fine Art  
**Prerequisite:** None  
**Course Description:** This is an elective course offering beginning instruction for the acoustic guitar. Students will learn how to read music, music fundamentals, guitar notation, sing simple melodies while playing accompaniment, open chords, power chords, moveable chords, accompaniment techniques, and a variety of playing techniques and styles including both the pick and finger styles. The course also includes in-class performances (solo and small ensemble) and two research papers (one each semester). Students must provide their own acoustic guitar.

### Guitar Advanced

**Course Code:** 521008 (CCAA, FHS, RLHS)  
**Grades:** 9-12  
**Duration:** Year  
**HS Grad Req:** Fine Art  
**UC/CSU a-g:** F: Fine Art  
**Prerequisite:** Guitar Beg or Teacher Approval  
**Course Description:** This is an elective course offering additional instruction for the acoustic guitar. Students will learn how to read music, music fundamentals, guitar notation, sing simple melodies while playing accompaniment, open chords, power chords, moveable chords, accompaniment techniques, and a variety of playing techniques and styles including both the pick and finger styles. The course also includes in-class performances (solo and small ensemble) and two research papers (one each semester). Students must provide their own acoustic guitar.

### Piano Beginning

**Course Code:** 511006 (FHS, GUHS, RLHS)  
**Grades:** 7-12  
**Duration:** Year  
**HS Grad Req:** Fine Art  
**UC/CSU a-g:** N/A  
**Prerequisite:** None  
**Course Description:** This course is designed to help the beginning and intermediate students acquire a proficiency in playing two-hand piano music ranging from simple to complex. Emphasis will be placed on note accuracy, correct rhythmic patterns, correct hand position and fingering, major chords, dynamics, and other theories necessary to complete the assignments.

### Piano Intermediate

**Course Code:** 521006 (GUHS)  
**Grades:** 9-12  
**Duration:** Year  
**HS Grad Req:** Fine Art  
**UC/CSU a-g:** N/A  
**Prerequisite:** Beg Piano  
**Course Description:** This course is designed to help beginning and intermediate students acquire a proficiency in playing two-handed piano music ranging from simple to complex. Students will also learn basic music theory necessary to complete their assignments.
Course Descriptions – Visual and Performing Arts

Piano Advanced
531006 (FHS, HHS, RLHS)
Grades: 10-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: N/A
Prerequisite: Piano Beginning or Teacher Approval
Course Description: This course is designed for the piano student who is beyond the beginning level. Students will continue to develop the fundamental skills of reading music and applying these theories to playing the piano. Emphasis will be placed on note accuracy, correct rhythmic patterns, correct hand position and fingering, major chords, dynamics, expression, and other theories necessary to complete the assignments.

Vocal Jazz 1
515007 (RLHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: N/A
Prerequisite: None
Course Description: This is the entry-level vocal jazz ensemble. The course is designed to train the vocalist in all styles of jazz music. The objectives of the course are to establish the highest degree of technique, musicianship, and ensemble singing possible. Musical styles will include Swing, Vocal Jazz, and Pop. Students in this ensemble are required to perform many times throughout the year. This includes several music festivals and music tours. Attendance is required.

Vocal Jazz 2
521007 (RLHS)
Grades: 9-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: N/A
Prerequisite: Vocal Jazz 1 or Teacher Approval
Course Description: This is the top vocal jazz ensemble. The course is designed to train the vocalist in all styles of jazz music. The objectives of the course are to establish the highest degree of technique, musicianship, and ensemble singing possible. Musical styles will include Swing era, Cool Bop, Hard Bop, Vocal Jazz, Pop, and New Age Jazz. Students in this ensemble are required to perform many times throughout the year. This includes several music festivals, recording, and music tours. Attendance is required.

Course Descriptions – Physical Education

PE Advanced
921003 (RLHS)
Grades: 9-12 Duration: Year
HS Grad Req: P.E. UC/CSU a-g: N/A
Prerequisite: None
Course Description: Advanced Physical Education is designed for Varsity athletes to further develop skills at a competitive level. Curriculum will focus on improving strength, movement, speed, agility, and quickness for various sport programs. Athletes will learn proper nutrition and lifting and stretching techniques.

PE Course 1
911001 (All Schools)
Grades: 9-12 Duration: Year
HS Grad Req: P.E. UC/CSU a-g: N/A
Prerequisite: None
Course Description: Physical Education 1 is mandatory for all 9th grade students. This course is designed to give students the opportunity to learn through a comprehensive sequentially planned Physical Education program in accordance with the California Model Content Standards for Physical Education. Students will be empowered to make choices, meet challenges and develop positive behaviors in fitness, wellness, and movement activity for a lifetime. Emphasis is placed on students analyzing skills for effective physical fitness. Units of instruction include: introduction to physical education, fitness (including fitness technology), individual and dual activities, rhythm/dance, and aquatics. All 9th grade students will be required to take the California State Mandated Physical Fitness Test(s).

PE 3 Weight Training
921004 (FHS, HHS)
Grades: 10-12 Duration: Year
HS Grad Req: P.E. UC/CSU a-g: N/A
Prerequisite: P.E. Course 1
Course Description: This course is designed to give students the opportunity to learn weight training concepts and techniques used for obtaining optimal physical fitness. Students will benefit from comprehensive weight training and cardiorespiratory endurance activities. Students will learn the basic fundamentals of weight training, strength training, aerobic training, and overall fitness training and conditioning. Course includes both lecture and activity sessions. Students will be empowered to make wise choices, meet challenges, and develop positive behaviors in fitness, wellness, and movement activity for a lifetime.

PE 3 Fundamentals of Yoga
921002 (GUHS)
Grades: 10-12 Duration: Year
HS Grad Req: P.E. UC/CSU a-g: N/A
Prerequisite: P.E. Course 1
Course Description: This course is designed to introduce students, safely and accessibly, to the basic postures, breathing techniques, and relaxation methods of yoga. Students will begin to experience the benefits of stretching, moving, and breathing freely as they relieve built up stress, learn to relax, and ultimately get more out of day-to-day life. The aim of this course is to promote vibrant health and to tap the body’s latent energy reserves.

Course Descriptions – CTE

Advanced Alternative Energy
741017 (FHS)
Grades: 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Energy Generation Trans & Storage
CTE Pathway (level): New Energy Academy (capstone)
Course Description: Students in this course will complete their National Center for Construction Education and Research (NCCER) certification and earn introductory certification in Leadership in Energy and Environmental Design (LEED) building standards. Student will continue to explore energy production and prepare for careers in Energy and Utilities sector. Students will also participate in the Solar Regatta and build a solar-powered boat.

Advanced Digital Media
731014 (CCAA, HHS)
Grades: 11-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: F:Fine Art
Prerequisite: Digital Media 1
CTE Pathway (level): Digital Media (capstone)
Course Description: Digital Media provides training for individuals seeking an entry-level position in fields requiring computer graphic skills with an emphasis on multimedia. Students who successfully complete the course will have valuable skills in general illustration, digital imaging, web page design and implementation, 2D and 3D animation, and digital video editing. Students receive training with industry software programs. In addition, students are taught web page design skills utilizing raw HTML with Javascript implementation.

Advanced Floral Design
521702 (RLHS)
Grades: 11-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F:Fine Art
Prerequisite: Floral Design
CTE Pathway (level): Agriscience (capstone)
Course Description: This course provides the student with professional florist skills while building solid career experience in floral design, display and marketing. The student will learn proper care and handling of flowers, plants, and foliage, how to evaluate floral materials and arrangements, utilize floral tools, supplies and products, apply design principles to the floral medium, designs and preserve floral materials.

Advanced Sound Production
731008 (GUHS)
Grades: 11-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Multimedia Sound Production
CTE Pathway (level): Music Production (capstone)
Course Description: Advanced Music Production students study every audio element in studio, live, broadcast and field recording. They will learn the basics of audio, physics of sound, recording, and mixing through hands-on experiences with state-of-the art equipment. Students will build sound engineering knowledge for a solid foundation in an audio career.

Advanced Television and Video Production
531703 (RLHS)
Grades: 11-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite:Beginning Television and Video Production
CTE Pathway (level): Television and Video Production (capstone)
Course Description: This course provides instruction and training for students interested in careers in the video, broadcast, and film production industries. Students experience both the creative and technical aspects of film making and video production in conjunction with learning about historical and contemporary traditions and conventions. Students will explore different aspects of the media and entertainment industry as it relates to potential career selections. Students achieving competency in this course will be prepared to enter a film or broadcast journalism course of study at the college level or be prepared for entry-level employment in those fields.

Advanced Theatre
531003 (GUHS)
Grades: 11-12 Duration: Year
HS Grade Req: Electives UC/CSU a-g: N/A
Prerequisite: Theatre Production
CTE Pathway: Theatre (capstone)
Course Description: This CTE course will apply skills learned in theatrical performance to create project-based performances in theatre. Students will prepare audition or direction portfolios, learn business/managerial skills, and develop a professional career plan. This is a class focused on theatrical performance, with student selection and direction of performance pieces playing a major part of the course of study.
Course Descriptions – CTE

Agriculture Economics
731034 (RLHS)
Grades: 12 Duration: Semester
HS Grad Req: Econ UC/CSU a-g: N/A
Prerequisite: None
Course Description: This course will cover the basics of economic principles, decision-making, business organizations, financial institutions, the free enterprise system, and how these topics affect the agriculture industry. The goal of this course is to prepare students to enter the working world or the academic world with a working knowledge of how economic policies affect everyday life. Students will be expected to participate in workplace learning experiences and individual leadership skill development activities. In addition, the inter-curricular FFA program supports and enhances the materials covered in the classroom. This includes involvement in FFA activities, planning of an agriculture-based project, and keeping accurate records.

Agriculture Economics and Business
731001 (GUHS)
Grades: 12 Duration: Year
HS Grad Req: Economics UC/CSU a-g: N/A
Prerequisite: Landscape Environment Design
CTE Pathway (level): GEO Academy (capstone)
Course Description: The course is designed for advanced study of agriculture business opportunities and economics for the college bound students with interest in agriculture. Through the course, the student will understand and apply basic economic principles as they relate to individual consumers, production agriculture, and agri-business management. Life skills such as resumes, job applications, interview skills, and college and scholarship applications will be included. The students will maintain the Academy business that will produce, package, determine prices, and market their products. Students will keep accurate records of expenses, receipts, and profit/losses.

Agriculture Explorations
731033 (RLHS)
Grades: 10 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
Course Description: Agricultural Explorations is an intense introduction to variety of communications styles associated with agriculture with an emphasis on writing styles commonly used today in newspapers and magazines including feature writing, news writing, and opinion writing. In addition, students will learn how to write with an understanding of audience and purpose, how to gather information from a variety of sources, how to analyze complex information and how to present it in an appropriate written, visual and/or oral format depending on the objective. Students will also learn to deliver polished formal extemporaneous presentations that combine the traditional rhetorical strategies of narration, exposition, persuasion, and description.

Agriculture Government
731035 (RLHS)
Grades: 12 Duration: Semester
HS Grad Req: Govern UC/CSU a-g: N/A
Prerequisite: None
Course Description: The twelfth grade course of study focuses on the structure and processes of the United States Government System. Initial emphasis will be on the responsibilities and rights of citizenship, voting, political parties, elections, campaigns, the Constitution, the branches of government, and the Bill of Rights. Additionally, the course will compare the political power at the local, state, national, and global levels. A consistent focus throughout the course will be an analysis of the role that both the government and the voters play in developing policies and laws affecting the Agriculture Industry. Students will also be involved in Supervised Agricultural Experience projects and develop leadership skills through participation in the FFA program. This course meets the state government graduation requirement.

Agricultural Leadership
741024 (RLHS)
Grades: 9-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
Course Description: This course is designed to build effective leadership skills. Topics covered include: group effectiveness, communication, group dynamics, personal development, positive attitudes, listening, setting goals, organization, public speaking, and problem solving-decision making. This course is enriched with films, videotapes, books, guest speakers, and field trips.
Course Descriptions – CTE

Animal Science
521706 (RLHS)
Grades: 11 Duration: Year
HS Grad Req: Life Science UC/CSU a-g: D: Lab
Prerequisite: Ag Soil and Chemistry
CTE Pathway (level): Agriscience Academy (concentrator)
Course Description: This course will provide the student with principles of Animal Science focusing on the areas of mammalian production, anatomy, physiology, reproduction, nutrition, respiration, and genetics. This course is intended to successfully prepare those students who plan on majoring in Agriculture Sciences at college or university.

Beginning Agriculture Mechanics
721004 (RLHS)
Grades: 9-11 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
CTE Pathway (level): Agriscience Academy (concentrator)
Course Description: The Beginning Agriculture Mechanics course provides theory and hands-on experiences that provide opportunities for students to develop basic knowledge and skills in agricultural mechanics. Instructional areas include basic electricity, cold metalwork, basic plumbing, masonry, rope work, basic woodworking skills, safety, tool identification, and measurement. Participation in FFA student organization activities and Supervised Agricultural Experience (SAE) projects is an integral course component for leadership development, career exploration, and reinforcement of academic concepts.

Beginning Television and Video Production
521703 (RLHS)
Grades: 10-11 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
CTE Pathway (level): Television and Video Production (concentrator)
Course Description: This course explores the history and impact of television and video production on American and Global cultures. Students will study the principles of lighting angles and set designs. Students will also learn the functions and operation of electronic photography, videotaping, editing, video making, etc.

Business Technology
721010 (GUHS)
Grades: 10-11 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
CTE Pathway: Business (concentrator)
Course Description: This course provides an in-depth, hands-on introduction to business technology used for business communication. Topics include the operating system and communication through digital documents, presentations, data computation and presentation, as well as how we represent ourselves through digital media to society. This course applies the principles of ethical and effective communication in the creation of business letters, memos, emails as well as written and oral reports for a variety of business situations.

CA Natural Resources
741001 (GUHS)
Grades: 12 Duration: Year
HS Grad Req: Physical Science UC/CSU a-g: G: Lab
Prerequisite: Landscape and Environmental Design
CTE Pathway (level): GEO Academy (capstone)
Course Description: Through scientific data collection, direct hands-on learning, and studying of the complex relationship of humans and their use of resources, students will understand how we are connected to the environment, use resources, and determine ways to better utilize the finite resources we have. Students will engage in scientific data collection, experimental design, scientific writing and statistical analysis to gain an intimate understanding of the resources and opportunities California has to offer. Students will gain an understanding of the use and distribution of natural resources of California. They will study and know how the exploration, acquisition, refining and distribution of natural resources occur. Furthermore, students will understand how the laws, both federal and state, affect what resources are available for private and corporate use as well as why some resources are or are not economically viable. Finally, students will complete scientific studies, do experimentation to test student-developed hypotheses, gather qualitative and quantitative data, and write research studies on land management practices.
Course Descriptions – CTE

Career Choices
711025 (All Schools)
Grades: 9-10 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
Course Description: Career Choices is an interdisciplinary curriculum that engages students and teachers in an interactive learning process. This will help students develop the knowledge, skills, and attitudes needed to successfully examine their own lives, explore and evaluate a wide range of education and career options, and make reasoned and researched goals for their future.

Catering Production
741012 (RLHS)
Grades: 11-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Culinary 1
CTE Pathway (level): Culinary Arts (capstone)
Course Description: A capstone course that prepares individuals with the skills, attitudes, and knowledge needed for employment in food and beverage production and preparation occupations. Instruction includes such topics as customer relations, industry awareness, sanitation and food handling, nutrition, and standardized recipes. Students develop skills to select and use proper equipment, supplies, and procedures to produce a variety of food products to be sold or served, plan menus and arrange for equipment, decorations, entertainment, transportation, and storage of food.

Chemistry and Agriscience
421AG2 (RLHS)
Grades: 10 Duration: Year
HS Grad Req: Physical Science UC/CSU a-g: D: Lab
Prerequisite: Integrated Math 2 or Integrated Ag Science
CTE Pathway (level): Agriscience Academy (introductory course)
Course Description: This course explores the physical and chemical nature of soil as well as the relationships between soil, plants, animals, and agricultural practices. Students will examine properties of soil and land and their connections to plant and animal production. Students will develop an Agriscience research program to be conducted throughout the first semester of the course. Each student will investigate and test an Agriscience research question by formulating a scientific question related to the course content, formulating a hypothesis based on related research, conducting an experiment to test the hypothesis, collecting quantitative data, and forming a conclusion based on analysis of the data. The result of this research program will be an in-depth research and experimentation paper that is technically written, and based on scientific protocol.

Computer Graphics
531715 (CCAA)
Grades: 11-12 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: Digital Imaging 1
CTE Pathway (level): Digital Photo (capstone)
Course Description: Students in this course will learn about the various business practices in a graphics design workplace, build character and teamwork through group work and interactions. This course is designed to provide students with a fundamental understanding of computerized graphic art design, illustration, and digital imaging. Major projects may be required for inclusion in a student portfolio.

Computer Science Principles
731026 (GUHS)
Grades: 11-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Exploring Computer Science
CTE Pathway (level): Information and Computer Technology (capstone)
Course Description: Computer Science Principles (CS Principles) is designed to introduce students to the breadth of the field of computer science through an exploration of engaging and accessible topics. The course is designed to focus on the conceptual ideas of computing and help students understand why certain tools or languages might be utilized to solve particular problems. The main goal of the CS Principles course is to provide students a foundation in computer science concepts and practices so that students learn to reason using computational thinking and critical thinking skills. This course will engage students in the problem-solving and creative aspects of the field by creating products that involve the computational process the same way real-world professionals do. By applying the content and skills emphasized in the course, namely, problem-solving, abstraction, the use of and analysis of data, algorithmic thinking, creativity, programming, the effects of the Internet, and global impacts of computing, students will engage in rigorous instruction in order to become active and informed citizens in a global and technology-driven society.
Course Descriptions – CTE

Construction 1
721016 (FHS, VNHS)
Grades: 10-11 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
CTE Pathway (level): Construction (concentrator)
Course Description: This course is an introduction to the building materials, components, methods, and sequences in residential construction. It is designed to give students basic, entry-level skills in construction and related trades along with an overview of career opportunities available. Emphasis is placed on safety and proper use of both hand and power tools. This course provides students the experience of participating in the building of a shed along with various woodworking skill building projects.

Construction 2
731016 (FHS, VNHS)
Grades: 11-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Construction 1
CTE Pathway (level): Construction (capstone)
Course Description: This course is comprehensive, building upon foundational skills learned in an introductory class. The course will focus on all aspects of the building process, including site layout/survey foundations, masonry, floor systems, framing, roofing, exterior finishing, electrical, HVAC, waste systems, and plumbing. The course introduces advanced construction concepts and practices in current use in the construction industry.

Criminal Justice Academy 1
711022 (GUHS)
Grades: 9 Duration: Year
HS Grad Req: Electives UC/CSU a-g: G: Electives
Prerequisite: None
CTE Pathway (level): Criminal Justice Academy (preferred but not required)
Course Description: Criminal Justice Academy 1 is the beginning course in the four-year law enforcement/protective service series. This course introduces students to the many different kinds of jobs available in the protective services fields. This introductory course will place emphasis on historical influences, fundamental duties, obligations, and ethics inherent in a career in any of the law careers. Computer literacy and keyboarding skills will also be taught. Community service is required.

Culinary 1
721012 (FHS, RLHS)
Grades: 10-11 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
CTE Pathway (level): Culinary Arts (concentrator)
Course Description: This course prepares students with food production, preparation, customer service, and teamwork skills for employment. The Culinary Arts program effectively prepares students with the knowledge, skills, attitudes, and behaviors needed to successfully enter the job market or transition to post-secondary education programs. Instruction includes topics such as planning, selecting, storing, purchasing, preparing, testing, serving, and selling of quality food and food products.

Culinary Arts 2
731012 (FHS)
Grades: 11-12 Duration: Year
HS Grade Req: Electives UC/CSU a-g: N/A
Prerequisite: Culinary 1
CTE Pathway: Culinary Arts (capstone course)
Course Description: The course is the capstone for students interested in the restaurant, baking, and food services industry. Included are core content standards such as sanitation, food service operations, nutrition, food preparation and preparation, dining room and guest services, understanding products, and management concepts. The course will emphasize employability hard and soft skills.

Diesel Engine
731018 (HHS)
Grades: 11-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: Dual Enrolled
Prerequisite: Green Engine
CTE Pathway (level): Green Engine (capstone)
Course Description: This course provides students with knowledge and skills to diagnose, maintain, and repair diesel engines and related systems. Specific course topics may include principles underlying diesel engines, analyzing electrical circuits and systems, troubleshooting and repairing cooling systems, testing and repairing air conditioning charging systems, reading and interpreting service manuals, and identifying the principles and components of fuel injection systems; repair and replacement of water pumps, generators, governors, auxiliary and accompanying power units and controls; transmissions, drive lines and drive axles; brakes, tires, and wheels; steering and suspension systems; electrical and lighting systems; hydraulics and pneumatics; safety codes and regulations; and general shop skills, including brazing and welding.
Course Descriptions – CTE

Digital Imaging 1
521715 (CCAA)
Grades: 10-11 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
CTE Pathway (level): Digital Photo (concentrator)
Course Description: Students in Digital Imaging 1 will learn, apply, and create new digital photos through the use of digital cameras and their accessories. Students will also be trained in the use of Adobe Photoshop in editing and processing their digital photos. The course will culminate each semester in a semester-long portfolio of each student’s work.

Digital Media
521714 (CCAA, FHS, HHS)
Grades: 10-11 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
CTE Pathway (level): Digital Media (concentrator)
Course Description: This course explores the integration of digital media including computer graphics, video production, audio production, digital imaging, and animation. Students work on multimedia projects from concept (content gathering/research) to project completion (authoring/transmission) and focus on the media needed by small and large companies for marketing and corporate communication purposes. Students develop and demonstrate skill through the creation of multimedia productions and presentations on venues such as in portfolios, web productions, and live presentations.

Digital Media Production
741014 (FHS)
Grades: 11-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Digital Media 1
CTE Pathway (level): Digital Media (capstone)
CDE Course Code:
Course Description: Digital Media Production is a survey class that introduces students to electronic media production. The class covers music production and recording, digital photography and imaging, videography and film-making, web design, journalism, desktop publishing, music editing, and other electronic media. Digital media will provide basic concepts and tools of digital media. The class will feature several industry-standard applications including photo manipulations software such as Photoshop, video editing programs, and web design applications.

Education Careers
721005 (HHS)
Grades: 10 Duration: Year
HS Grade Req: Electives UC/CSU a-g: G: Electives
Prerequisite: None
CTE Pathway: Education (introductory)
Course Description: This course is designed to prepare students for careers in the field of education through the integration and development of core academic content. Students will also learn the professional norms, skills, and competencies related to careers in education. This interdisciplinary course integrates concepts from the social science, behavioral science, and biological science discipline and is based on currently accepted academic and career technical standards. Students will learn the principles of learning and teaching, apply educational related terminology, practice classroom management techniques, implement lesson plans, and create student assessments. This course include a work-based learning component in which students will work with learners in a variety of settings.

Electronics
721019 (GUHS)
Grades: 10-11 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
CTE Pathway (level): Electronics (concentrator)
Course Description: This course will provide students with the fundamentals of the theory, measurement, control, and application of electrical energy.

Electronics and Hydraulics
731031 (RLHS)
Grades: 11-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: Dual Enrolled
Prerequisite: None
CTE Pathway (level): Transportation (concentrator)
Course Description: This course covers the operation of diesel electrical systems such as electrical circuits, charging systems, and test instruments. This course provides an introduction to basic hydraulic principles and fundamentals. This course is a Dual Enrolled course with American River College. If passed this course allows the student to be awarded eight college units, 4 units for DCDT 140 and 4 units for DCDT 120. Students must be 16 years of age and hold a 2.0 gpa. This course meets 2 of the six courses needed to complete the Diesel Technology Certificate Requirements at ARC.
**Course Descriptions – CTE**

**Electronics Technology**  
731019 (GUHS)  
Grades: 11-12 Duration: Year  
HS Grad Req: Electives UC/CSU a-g: N/A  
Prerequisite: Electronics  
CTE Pathway (level): Electronics (capstone)  
Course Description: This course emphasizes electronics theory and complete laboratory experiments using modern test equipment. Proper use of various hand tools and soldering skills are also developed by building electronic projects. Students prepare for jobs as electronic technicians or assembly technicians.

**Energy Generation Trans & Storage (GTS)**  
731017 (FHS)  
Grades: 11 Duration: Year  
HS Grad Req: Electives UC/CSU a-g: N/A  
Prerequisite: Introduction to Energy  
CTE Pathway (level): New Energy Academy (concentrator)  
Course Description: Students will continue to explore topics related to the power industry. The course will follow the topics for the California Content Standards for physics, and will use hands-on projects in solar, wind, and thermal energy to connect those topics to the power industry.

**Environmental Horticulture**  
711001 (GUHS)  
Grades: 10 Duration: Year  
HS Grad Req: Electives UC/CSU a-g: G: Electives  
Prerequisite: None  
CTE Pathway (level): GEO Academy (introductory)  
Course Description: Environmental Horticulture is a course focused on the science and art of cultivating plants for human and environmental benefit and integrates scientific study with hands-on outdoor learning. This course includes the study of biological classification and plant identification, plant reproduction, plant physiology, plant pathology and entomology, plant use and installation, soil structure and function, plant names and classification, nutrition value of plants, and applications of biotechnology. Students will learn these subjects by participating in the school garden, the garden café, a plant research project, community service, and an environmental leadership project.

**Exploring Computer Science**  
721026 (GUHS)  
Grades: 10-11 Duration: Year  
HS Grad Req: electives UC/CSU a-g: G: Electives  
Prerequisite: None  
CTE Pathway (level): Information and Communication Technology (concentrator)  
Course Description: This course will provide students with foundational knowledge of computer science. Students will explore topics of human computer interaction, problem solving, web design, computer programming, data modeling, and robotics. Throughout the course, students will understand the algorithmic underpinnings of computer applications and gain technical expertise using computational tools.

**Floral Design**  
731002 (RLHS)  
Grades: 10-11 Duration: Year  
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art  
Prerequisite: None  
CTE Pathway (level): Agriscience (concentrator)  
Course Description: Floral Design provides an introduction to artistic and creative perception. Students are introduced to the elements and principles of visual art design. Students will research and study floral trends to understand and develop an appreciation for floral design with historical and cultural, formal and casual, ceremonial and traditional, including an understanding that floral designs are affected by society, culture, history, politics, and economic influence.

**Game Design 1**  
521723 (HHS)  
Grades: 10-11 Duration: Year  
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art  
Prerequisite: None  
CTE Pathway (level): Game Design (concentrator)  
Course Description: This course will introduce foundational game design skills that students will utilize in future classes. Students will learn basic design philosophies and apply them through iterative design projects. Students will develop, test and alter game mechanics and full games. Students will design analogue games (Card, Board and Dice) in order to master game design principles. Students will also learn to prototype games for later use as design documents for digital games. Students will also learn how to develop and create game play 3D environments and learn basic/advanced coding.
Game Design 2
731023 (HHS)
Grades: 11-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: G: Electives
Prerequisite: Game Design 1
CTE Pathway (level): Game Design (capstone)
Course Description: This course will continue to build on the foundational game design skills that students acquired in previous classes. Students will learn advanced design philosophies and apply them through iterative design projects. Students will develop, test and alter game mechanics and full games. Students will design computer-generated games (2d, Side Scrolling, Top Down, RPG) in order to master advanced game design principles. Students will continue prototyping games for later use as design documents for digital game portfolios. Students will continue to develop and create game play 3D environments and learn basic/advanced coding.

Green Engine
721018 (HHS)
Grades: 10-11 Duration: Year
HS Grad Req: Electives UC/CSU a-g: Dual Enrolled
Prerequisite: None
CTE Pathway: Green Engine (concentrator)
Course Description: This course provides students with the knowledge and skills regarding various alternative fuel vehicles including, but not limited to, electric, fuel cell, hybrid/electric, hydrogen fuel, compressed natural gas, liquid natural gas, ethanol and methanol fuel vehicles. Environmental concerns, legislation, safety, applications, and their integrated systems from various manufacturers as well as the development of new technology will be discussed. Students develop critical thinking skills through a variety of multimodal, problem-solving techniques. Integrated content focuses on demystifying technology; increasing student literacy, confidence and competence in an age of rapidly advancing technology; providing students with the basis for making wise academic and career choices.

Human Development
731005 (HHS)
Grades: 11 Duration: Year
HS Grade Req: Electives UC/CSU a-g: G: Electives
Prerequisite: Education Careers
CTE Pathway: Education (concentrator)
Course Description: This is a year-long course that provides students with a working knowledge of the life-cycle stages. This concentration course expands on the comprehensive core and prepares students to understand children’s physical, cognitive, emotional, and social growth and development, as well as provide for their care and guidance. Instruction includes prenatal development, inherited characteristics, health and safety, guidance and discipline, cultural diversity, child abuse and neglect, development of the child, adolescent, adult, and senior. This course provides a solid foundation for any career that involves working with people, including child and adult care and education.

Intermediate Agriculture Mechanics
731004 (RLHS)
Grades: 10-12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Ag Mechanics Tech
CTE Pathway (level): Agriscience Academy (capstone)
Course Description: Intermediate Agriculture Mechanics is a course designed to provide individualized instruction to students in developing welding skills, small engine repair and maintenance, and farm power. Students are required to create a project to exhibit at the local and regional fairs.

Integrated Agriculture Science
411AG1 (RLHS)
Grades: 9 Duration: Year
HS Grad Req: Physical Science UC/CSU a-g: D: Lab
Prerequisite: None
CTE Pathway (level): Agriscience
Course Description: Integrated Agriculture Science is a one-year course designed to integrate biological science practices and knowledge into the practice of sustainable agriculture. The course is organized into four major sections or units. Within each unit specific life science principles will be identified with agricultural principles and practices guiding the acquisition of this knowledge, culminating in the development of a sustainable farm model and portfolio of supporting student research.
Course Descriptions – CTE

Introduction to Business
611003 (RLHS)
Grades: 9-10 Duration: Semester
HS Grade Req: Electives UC/CSU a-g: N/A
Prerequisite: None
CTE Pathway (level): Entrepreneurship and Self-Employment (preferred but not required)
Course Description: This course is designed to introduce students to the world of work and living skills. Students will learn concepts that will prepare them for the world of work and life beyond high school. Areas of study include employability, career preparation, personal finance, business outlines, and starting up a fictitious business by developing a business plan. In addition, soft skills are developed through the incorporation of SkillsUSA Program of Work Career Essentials curriculum.

Introduction to Culinary Arts
711012 (RLHS)
Grades: 9-11 Duration: Semester
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
Course Description: Introduction to Culinary Arts is a one-semester course and the first course in a program of study designed to provide training opportunities in the food service and hospitality industries. The course will concentrate on skills and attributes needed to fill entry-level culinary and food service positions. Instruction includes training in the fundamental of basic food production, nutrition, sanitation, management, and services. As part of the instruction, reinforcement of basic skills is provided to assist students in practicing communication skills, utilizing listening skills to follow directions, practicing basic math skills as applied to a culinary arts setting, and reading to gain information and to perform assignments and tasks as directed.

Introduction to Energy
721017 (FHS)
Grades: 10 Duration: Year
HS Grad Req: Electives UC/CSU a-g: G: Electives
Prerequisite: None
CTE Pathway: New Energy Academy (introductory)
Course Description: In this course, the first goal is to enable our students to gain NCCER certifications in the following areas: Core, Your Role in the Green Environment, and Introduction to the Power Industry. The second goal is to introduce the key skills and knowledge required for success in the utilities/energy sector. The course covers various topics beginning with an introduction to energy, followed by how energy is used, basic electricity concepts, a survey of major energy sources, an overview of climate change, and energy policy. Major projects enable students to master the performance skills required by NCCER Certification.

Introduction to Teaching
741005 (HHS)
Grades: 12 Duration: Year
HS Grade Req: Electives UC/CSU a-g: G: Electives
Prerequisite: Human Development
CTE Pathway: Education (capstone)
Course Description: This course is modeled after the college/university course of the same name and is designed to fulfill the prerequisite for teacher education courses. Students will explore teaching as a profession and career, historical, and philosophical foundations for pre-K-12 education in America, contemporary educational issues, California’s content and performance standards and frameworks, and requirements for earning a teaching credential. Student will engage in 90 hours of supervised classroom field experience over the course of the year and will develop the skills to become a reflective future educator.
Course Descriptions – CTE

Kinesiology/Sports Medicine
721021 (FHS)
Grades: 10 - 11 Duration: Year
HS Grade Req: Electives UC/CSU a-g: D: Lab Sci
Prerequisite: None
CTE Pathway: Sport Medicine (concentrator course)
Course Description: This course takes an interdisciplinary approach to the study of human movement that can lead to an understanding of the health and exercise professions. An overview of career opportunities in teaching, coaching, allied health, and fitness professions will be covered. Emphasis is on the practical application of these concepts as practitioners in sports medicine, exercise science, and movement-oriented careers. This class meets the content standards for Health Science and is a prerequisite to Sports Medicine 2.

Landscape and Environmental Design
521701 (GUHS)
Grades: 11 Duration: Year
HS Grad Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: Environmental Horticulture
CTE Pathway (level): GEO Academy (concentrator)
Course Description: The purpose of this course is to introduce students to the field of landscape and environmental design. Projects range from community parks to the front and back yards of homes, from river habitat restoration to planning at the city scale. Students will develop an awareness of the interactive relationship between humans and how they shape their environment. Instruction will be given in the following areas: elements of design, the history of landscape architecture, plant identification, technical drafting, sketching, and computer design. They will explore future careers such as landscape architecture, environmental design, and engineering. Students will also utilize their knowledge and skills in a design project to beautify their school and community.

Law Enforcement 1
721022 (GUHS)
Grades: 10 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Criminal Justice 1 preferred, but not required
CTE Pathway (level): Criminal Justice Academy (introductory)
Course Description: The purpose of this class is to introduce the student to the various positions in the area of Law Enforcement and other legal professions and the areas of support needed to maintain that particular office or agency. This course provides students with skills to help pass oral interviews as related to entry-level positions in these fields. The criminal justice system is covered from the arrest of the suspect through final adjudication. The student will learn the importance of the U.S. Constitution as well as our state laws.

Law Enforcement 2
731022 (GUHS)
Grades: 11 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Law Enforcement 1
CTE Pathway (level): Criminal Justice Academy (concentrator)
Course Description: This course examines the constitutional basis and framework of the U.S. legal system and gives students training in legal research and writing. Topics covered include legal history, federal and state court systems, and a survey of the U.S. legal tradition. Instruction also includes the evolution of civil rights from those recognized in early interpretations of the Constitution through the Civil War to the present day. Students read and analyze stimulating case studies, discuss landmark decisions, conduction legal research, and write opinion papers.

Law Enforcement 3
741022 (GUHS)
Grades: 12 Duration: Year
HS Grade Req: Electives UC/CSU a-g: N/A
Prerequisite: Law Enforcement 2
CTE Pathway: Criminal Justice Academy (capstone)
Course Description: In this course students examine how statutes and policies are developed to safeguard society. Includes an analysis of civil rights and liberties, and the ways courts and legislators deal with constitutional questions. The course also examines civil law and its application to everyday life. Instruction includes the evolution of civil rights from those recognized in early interpretations of the Constitution through the Civil War to the present day and fundamentals of legal research, writing, and citation. Guest speakers from the Sheriff’s Department, Police Department, Department of Justice, and District Attorney’s Office may be called upon to speak on various subjects related to criminal and civil law.
Marketing and Business Leadership  
731010 (GUHS)  
Grades: 11-12 Duration: Year  
HS Grade Req: Electives UC/CSU a-g: N/A  
Prerequisite: Business Technology  
CTE Pathway: Business (capstone)  
Course Description: This course provides students with an introduction to marketing and business leadership in the global economy. Emphasis will be placed on both oral and written communications, mathematical applications, problem solving, and critical thinking skills, as they relate to the distribution, financing, marketing-information management, pricing, product/service management, promotion, entrepreneurship, and selling. Students will be exposed to various careers within the marketing and business leadership fields.

Marketing & Merchandising  
721011 (RLHS)  
Grades: 10-11 Duration: Year  
HS Grade Req: Electives UC/CSU a-g: N/A  
Prerequisite: Intro to Business, preferred but not required  
CTE Pathway: Entrepreneurship (concentrator course)  
Course Description: The course in marketing and merchandising is a hands-on course that is instrumental in the development of the on-campus business Knights Armor. Students will be expanding their business knowledge by incorporating various marketing techniques to build the business and develop a broader clientele. Students will also develop their teamwork skills and will learn various persuasive sales techniques that produce a proactive work environment. Topics include customer service, inventory control, merchandising strategies, promotion and pricing. The students will also work in developing soft skills through the incorporation of SkillsUSA Program of Work Career Essentials curriculum. This course has additional work hours required during lunches and various athletic events.

Multimedia Sound Production  
721008 (GUHS)  
Grades: 10-11 Duration: Year  
HS Grad Req: Electives UC/CSU a-g: F: Fine Art  
Prerequisite: None  
CDE Course Code:  
CTE Pathway: Music Production (concentrator)  
Course Description: This course will prepare you for a career in the sound engineering or recording industry and provide invaluable experience for home-studio producers that aim at making the step into recording bands and ensembles. Industry software and hardware are used throughout the course as a recording device, but the course will concentrate on microphones, working with musicians, analogue and digital mixers, the studio environment, and practical recording.

Principles of Engineering  
731007 (RLHS)  
Grades: 10-12 Duration: Year  
HS Grad Req: Electives UC/CSU a-g: G: Electives  
Prerequisite: None  
CDE Course Code: 7731 Advance Engineering Design Capstone  
CTE Pathway: Engineering PLTW (capstone)  
Course Description: Principles of Engineering™ is the second course within the Project Lead the Way® (PLTW) high school engineering program, and is designed to follow Introduction to Engineering Design. This course prepares students for college majors in engineering or engineering technology fields. The course is designed for students desiring a solid background in engineering and technology. The program offers students project-based learning opportunities, and complements college preparatory math and science courses. Course content encompasses robotics, energy, power, materials and structures, control systems, statistics and kinematics. It is highly recommended that students complete Physical Science and Integrated Math 1 before enrolling in Principles of Engineering.
Science for Sustainable Agriculture
731036 (RLHS)
Grades: 11-12 Duration: Year
HS Grad Req: Science UC/CSU a-g: G
Prerequisite: None
Course Description: This integrated class combines an interdisciplinary approach to laboratory science and research with agricultural management principles. Using skills and principles learned in the course, students design systems and experiments to solve agricultural management issues currently facing the industry. Additionally, students will connect the products created in this class with industry activities to link real world encounters and implement skills demanded by both colleges and careers. The course culminates with an Agriscience experimental research project in which students design and conduct an experiment to solve a relevant issue. Final projects will be eligible for Career Development Event competition at FFA events. Throughout the course, students will be graded on participation in intracurricular FFA activities as well as the development and maintenance of an ongoing Supervised Agricultural Experience (SAE) program.

Small Business Management
731001 (RLHS)
Grades: 11-12 Duration: Year
HS Grade Req: Electives UC/CSU a-g: N/A
Prerequisite: Marketing and Merchandising
CTE Pathway: Entrepreneurship (capstone course)
Course Description: The course Small Business Management deals with the advanced levels of running and operating a business. The students of this course learn to implement higher management duties. These duties pertain to the on-campus business Knights Armor that has several different entities. The students also are responsible for ordering, purchasing, inventorying, and monitoring the business accounting. Other areas of development are shipping/receiving, customer service, loss prevention, risk management, and personnel management. The students will also work in developing soft employment skills through the incorporation of SkillsUSA Program of Work Career Essentials curriculum. This course has additional work hours required during lunches and various athletic events in a management capacity.

Sports Academy 2
731020 (GUHS)
Grades: 11 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Sports Medicine 1
CDE Course Code:
CTE Pathway: Sports Health Academy (concentrator)
Course Description: In this intermediate course, you will explore skeletal, muscular, and integumentary systems, and kinesiology. In addition, you will be studying a wide range of rehabilitation techniques and care of common injuries in sports that include the following categories: athletic training, fitness training certification, CPR/first aid certification, job seeking/general workplace skills, sports media (GSPN), entrepreneurship, and event management.

Sports Academy 3
741020 (GUHS)
Grades: 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: Sports Academy 2
CDE Course Code:
CTE Pathway: Sports Health Academy (capstone)
Course Description: In this advanced course, you will explore internship opportunities and managing events in sports medicine, sports media, and sports management. In addition, you will be studying ethical principles and concepts in media, medicine, and management in sports include the following categories: leadership skills, moral issues in sports marketing, fitness training recertification, CPR/first aid recertification, job seeking/general workshop skills, entrepreneurship, financial management, and sports media.

Sports Medicine 1
721020 (GUHS)
Grades: 10 Duration: Year
HS Grad Req: Electives UC/CSU a-g: G: Electives
Prerequisite: None
CDE Course Code:
CTE Pathway: Sports Medicine or Sports Health Academy (introductory)
Course Description: Students will learn the fundamentals and skills necessary in the field of physical medicine. Instruction includes basic anatomy and physiology, treatment and care of athletic injuries, immediate and temporary care of injuries, nutrition, sport psychology, clinic/office management practice, procedures, standards, and ethics. In addition, students will learn about the possible career pathways within sports medicine.
**Course Descriptions – CTE**

**Sports Medicine 2**  
731024 (FHS)  
**Grades:** 11-12  
**Duration:** Year  
**HS Grad Req:** Electives  
**UC/CSU a-g:** N/A  
**Prerequisite:** Kinesiology  
**CDE Course Code:**  
**CTE Pathway:** Sports Medicine (capstone)  
**Course Description:** In this course, students will explore each of the human body systems. In addition, for each body system students will study a wide range of health care aspects that include the following categories: human body systems pathologies, medical terminology, health care careers, public health, fitness training certification, coaching, CPR/first aid certification, medical insurance, sports media, and sports management. This course offers internship opportunities with various high school sports teams.

**Theatre Production**  
721003 (GUHS)  
**Grades:** 10-11  
**Duration:** Year  
**HS Grade Req:** Electives  
**UC/CSU a-g:** N/A  
**Prerequisite:** None  
**CTE Pathway:** Theatre (concentrator)  
**Course Description:** This CTE course introduces the variety of careers in professional theatre. Students will study a range of professional models from Broadway to regional to community theatre to identify established practices and basic competencies required to create professional theatre. This course culminates with a performance in front of a live audience. Students who successfully audition are cast as an actor in the fall and/or spring theatre production.

**Veterinary Science**  
731006 (RLHS)  
**Grades:** 12  
**Duration:** Year  
**HS Grad Req:** Electives  
**UC/CSU a-g:** G: electives  
**Prerequisite:** Animal Science  
**CTE Pathway (level):** Agriscience Academy (capstone)  
**Course Description:** This course explores the causes, diagnosis, and treatment of diseases and injuries of animals, typically emphasizing domestic and farm animals. Course topics focus on anatomy and physiology, nutrition, behavior, reproduction, sanitation, and use of veterinary supplies and equipment. Participation in FFA student organization activities and SAE projects is an integral course component for leadership development, career exploration, and reinforcement of academic concepts.

**Work Experience Education, CTE**  
731027 (FHS, GUHS, HHS, RLHS)  
**Grades:** 11-12  
**Duration:** Year  
**HS Grad Req:** Electives  
**UC/CSU a-g:** N/A  
**Prerequisite:** Must be enrolled in CTE pathway  
**Course Description:** The Career Technical Work Experience Education (CTWEE) course is designed to support students in the various career-connected academies and pathways in TRUSD. Students enrolled in either concentrator or capstone courses are eligible for the CTWEE course while on an identified internship within their chosen career sector and with the approval of their career technical education teacher/coordinator. The CTWEE course provides additional opportunities for students to research and develop a plan in their chosen area of interest as it reinforces and extends the skills learned through a combination of related classroom instruction in WEE and supervised, paid employment in the occupation or industry sector for which they have begun preparation.

Course Descriptions – Electives

**Academic Decathlon**

610018 (RLHS)

Grades: 9 - 12
Duration: Year

**HS Grad Req:** Electives
**UC/CSU a-g:** N/A

**Prerequisite:** None

**Course Description:** The Academic Decathlon is a ten-event scholastic competition for teams of high school students. Each high school enters a team of nine students: 3 “A” or Honor students, 3 “B” or Scholastic students, and 3 “C” or Varsity students. Students compete in an annual event held by the Sacramento Office of Education (SCOE) by taking examinations in the categories of Economics, Art, Music, Math, Science, English and Literature, Interview, Speech, Essay, and Super-quiz. In this class students learn valuable study skills, and enhance their knowledge of other curricular offerings. Students should be self-starters, independent learners and highly motivated in order to successfully compete at this level.

**AFJROTC**

611012 (HHS)

Grades: 9 - 12
Duration: Year

**HS Grad Req:** Electives
**UC/CSU a-g:** N/A

**Prerequisite:** None

**Course Description:** Each period of ROTC is designed as an Aerospace Science Class (AS) 1-4. This program is a high school program to build better and more productive citizens. Students will learn and earn respect from their peers, leadership skills, responsibility, self-reliance, patriotism, time management, and what it means to be part of a team.

**Aide: Counselor, Teacher, Librarian, Office Clerk**

611007 (FHS, GUHS, HHS, RLHS, VNHS)

Grade: 11-12
Duration: Year

**HS Grad Req:** Elective
**UC/CSU a-g:** NA

**Prerequisite:** None

**Course Description:** Students in this course are assigned to assist a teacher, counselor, Librarian, or Office Clerk. Students are trained in a variety of skills and responsibilities to assist the work in their Aide assignment. Students must possess a willingness to work, follow directions, be punctual, and exhibit self-discipline and initiative.

**Anthropology**

231008 (GUHS, RLHS)

Grade: 10 - 12
Duration: Year

**HS Grad Req:** Electives
**UC/CSU a-g:** G: Electives

**Prerequisite:** None

**Course Description:** Anthropology is defined as the science and study of mankind and is a major field of study at universities all over the world. This course emphasizes the study of mankind as a whole, use of comparative methods, and the development of the concepts of culture. The study overlaps all of the social sciences and many of the biological sciences. Course topics include archaeology, courtship, marriage and family, physical evolution, origin of racial types and race relations, religions of mankind, the supernatural, the dawn of civilization, and the human life cycle – birth to death.

**AP Computer Science A**

611038 (GUHS)

Grades: 10-12
Duration: Year

**HS Grad Req:** Electives
**UC/CSU a-g:** G: Mathematics, Computer Science

**Course Description:** AP Computer Science A is equivalent to a first-semester, college level course in computer science. The course introduces students to computer science with fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems. The AP Computer Science A course curriculum is compatible with many CS1 courses in colleges and universities.
Course Descriptions – Electives

AP Psychology
233005 (GUHS)
Grades: 10 - 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: Pending
Prerequisite: None
Course Description: The AP Psychology course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts and phenomena associated with such topics as the biological basis of behavior, sensation and perception, testing and individual differences, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior and social psychology.

Army JROTC LET 1
611010 (GUHS)
Grades: 9 - 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: G: Electives
Prerequisite: None
Course Description: JROTC helps you develop your leadership skills while gaining a greater appreciation for the privileges, rights, and responsibilities of citizenship. Not a typical high school class, JROTC is a student-led, activity oriented class that develops citizenship and responsibility using basic military values of loyalty, duty, responsibility, selfless service, honesty, integrity, and personal responsibility. It promotes academic achievement and teaches basic military concepts – applicable in both military and civilian careers. JROTC emphasizes community service, competition in academics and sports, and teamwork.

Army JROTC LET 2,3 & 4
611011 (RLHS)
Grades: 9 - 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
Course Description: JROTC helps you develop your leadership skills while gaining a greater appreciation for the privileges, rights, and responsibilities of citizenship. Not a typical high school class, JROTC is a student-led, activity oriented class that develops citizenship and responsibility using basic military values of loyalty, duty, responsibility, selfless service, honesty, integrity, and personal responsibility. It promotes academic achievement and teaches basic military concepts – applicable in both military and civilian careers. JROTC emphasizes community service, competition in academics and sports, and teamwork.

AVID 9
611002 (FHS, GUHS, HHS, RLHS)
Grades: 9 - 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
Course Description: AVID is a unique program designed to help students prepare for college. The curriculum follows the international AVID model and alternates between the four main AVID components: Writing, Strategies for Success, College and Careers, and Collaborative Tutorial.
Course Descriptions – Electives

AVID 10
621002 (FHS, GUHS, HHS, RLHS)
Grades: 9 - 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: AVID 9
Course Description: AVID is a unique program designed to help students prepare for college. The curriculum follows the international AVID model and alternates between the four main AVID components: Writing, Strategies for Success, College and Careers, and Collaborative Tutorial.

AVID 11
631002 (FHS, GUHS, HHS, RLHS)
Grades: 9 - 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: AVID 10
Course Description: AVID is a unique program designed to help students prepare for college. The curriculum follows the international AVID model and alternates between the four main AVID components: Writing, Strategies for Success, College and Careers, and Collaborative Tutorial.

AVID 12
641003 (FHS, HHS, RLHS)
Grades: 9 - 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: G: Electives
Prerequisite: AVID 9, 10, & 11
Course Description: This is an advanced AVID course and will focus on college reading, writing, and speaking skills with very little review of basic study skills. Students are expected to take detailed notes in all of their classes and come to class prepared. Curriculum follows the international AVID model.

Career and Life Management
611004 (FHS, VNHS)
Grades: 9 - 12 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
Course Description: Students will learn about goal setting, employability/work skills, financial literacy, consumer education, and life management. Students will obtain skills in resume writing, interviewing, checking, credit management, consumer rights and responsibilities.

Foothill Seminar
611009 (FHS)
Grades: 9 Duration: Year
HS Grad Req: Electives UC/CSU a-g: N/A
Prerequisite: None
Course Description: Welcome to FOOTHILL SEMINAR. This course is designed to provide assistance to freshman students as they begin their high school career. We will use the Career Choices curriculum to: identify individual strengths, work values, and work behavior styles. Explore personal goals, create an individual vision for success, and understand the value of education. Explore careers and career pathways, including post-secondary education (college and/or vocational- technical). Create an individual 10-year Plan that students, parents, teachers, and counselors can use throughout high school and beyond. Study ideas, strategies, and stories relating to achieving success. In addition, we will provide support via individual and peer tutoring. Support the completion of a successful academic year.
**Newspaper Journalism**

*611008 (FHS, PHS, RLHS)*

**Grade:** 11-12  **Duration:** Year

**HS Grad Req:** Elective  **UC/CSU a-g:** B: English

**Prerequisite:** N/A

**Course Description:** In this course, students learn about newspaper production through publication of the school paper. The course offers instruction and practice in the following: copy writing and editing, proofreading, interviewing; writing feature stories, editorials, and human interest stories; critical reviewing plays, books, and motion pictures; headline writing; using Microsoft Word, PageMaker for page make-up; layout design; and business management, including advertising. Students will also demonstrate their ability to write well under pressure, gather information independently, organize it cooperatively, and work effectively with their peers. Students will learn to write in descriptive, narrative, expository, and persuasive styles. Students will learn terms of journalism and apply them in their writing and newspaper production: sentence coherence, economy, modification, balance, diction, rhetoric, unity, logical fallacy, syntax, voice, audience, tone, and style. Through extensive writing and rewriting, students will create a portfolio that exhibits mastery in all of these skills. Students will also study and critique college, high school, and professional newspapers as well as critique their own school newspaper with the goal of improving their production. Students will be evaluated for writing within deadlines, writing accuracy, reflection and improvement, portfolio, quizzes and tests.

**Public Speaking Beginning**

*611020 (GUHS)*

**Grade:** 11-12  **Duration:** Year

**HS Grad Req:** Elective  **UC/CSU a-g:** G: English

**Prerequisite:** None

**Course Description:** This course introduces students to the art of public speaking—the process of designing and delivering a message to an audience. Effective public speaking involves understanding your audience and speaking goals, choosing elements for the speech that will engage audiences with a topic, and deliver a message skillfully.

**Public Speaking Advanced**

*611037 (GUHS)*

**Grades:** 11-12  **Duration:** Year

**HS Grad Req:** Elective  **UC/CSU a-g:** G: English

**Course Description:** Throughout the course, students rely on descriptive content and examples, including a generous distribution of audio, visual, and written speeches to illustrate the following topics and skills being discussed. In this unit, students explain classical and modern rhetorical devices. They recognize the influence of classical rhetoric in shaping Western thought. They analyze the ethical responsibilities that accompany freedom of speech. They develop and use listening skills to analyze and evaluate speeches. They apply knowledge and understanding of rhetoric to analyze speeches. They analyze how modern public address influences public opinion and policy in a democracy.

**Peer Tutor**

*651002 (GUHS, HHS)*

**Grades:** 7 - 12  **Duration:** Year

**HS Grad:** Electives  **UC/CSU a-g:** N/A

**Prerequisite:** None

**Course Description:** Under the supervision of the teacher, the tutor works with individual or small groups of students to improve motivation and academic performance. Students will receive in-service training in methodology, curriculum, materials, and equipment used in the classroom.
Course Descriptions – Electives

**Student Leadership**
Aide: Counselor, Teacher, Librarian, Office Clerk
611016 (FHS, GUHS, HHS, PSH, RLHS, VNHS)
*Grades*: 11-12 *Duration*: Year
*HS Grad Req*: Elective *UC/CSU a-g*: N/A
*Prerequisite*: None

**Course Description**: In a collaborative setting, students in this course acquire and refine leadership skills in accordance with the course standards published by the California Association of Directors of Activities and the California Association of Student Leaders. Such standards include skills in communication, business affairs/accounting, governmental procedure, community service, and personal/social development. Students will also develop and utilize cooperative skills in planning and executing campus-wide events for the student body and the surrounding community with the intent of fostering a positive campus culture and climate. Student will learn about the critical importance of communication, personal and social responsibilities, student government, service learning, and business aspects of student body organizations.

**Work Experience**
631027 (FHS, GUHS, HHS, RLHS)
*Grades*: 11-12 *Duration*: Year
*HS Grad Req*: Electives *UC/CSU a-g*: N/A
*Prerequisite*: None

**Course Description**: An elective course for juniors and seniors who have a part-time job. A unique program that is designed to link the school curriculum (WE class) with the world of work. Students in the program earn high school credit by attending a weekly class that teaches job skills, work habits, and sensible and positive attitude, self-confidence, and job skills, which can be used to locate, secure, retain employment, and enhance your career development.

**Yearbook**
611019 (FHS, GUHS, PHS, RLHS, VNHS)
*Grade*: 11-12 *Duration*: Year
*HS Grad Req*: Electives *UC/CSU a-g*: N/A
*Prerequisite*: None

**Course Description**: This is a project-based course that leads to the creation of the school annual, a documentary of each year of a student’s high school experience. It involves recording of events, individuals and ideas in a variety of formats. Students must demonstrate elements of journalism, art, photography, graphic design, text, business, graphic design and organization.
American River College (ARC) distance learning concurrent enrollment classes: These courses are semester long and students will receive 10 high school credits and 3 college credits for each course. The courses will be offered at Highlands High School, Rio Linda High School, Grant High School, Foothill High School and Creative Connection Arts Academy. These college credits are transferable to University of California (UC), California State University (CSU) and Community Colleges. These courses must be passed with a C or better to receive college credit.

ARC English 300
148001 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 12 Duration: Semester (10 credits)
HS Grade Req: English UC/CSU a-g: B: English
Prerequisite: None
Course Description: This course emphasizes writing and includes reading, research, and critical thinking skills essential for successful completion of a college degree. It covers writing assignments, including expository and argumentative essays (6,000 words minimum for course) using MLA documentation and format. It also includes reading assignments selected from a variety of transfer-level texts of substantial length. This course is not open to students who have successfully completed ENGWR 480.

ARC English 302
148002 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 12 Duration: Semester (10 credits)
HS Grade Req: English UC/CSU a-g: B: English
Prerequisite: ENGWR 300
Course Description: This course develops analytical skills through writing and discussion. It examines methods by which people are persuaded to think, believe, and act. It also includes analyses of arguments or expressions of opinions for their validity and soundness. Assigned readings include a variety of essays and a book-length text. Finally, this course focuses on critically assessing, developing, and effectively expressing and supporting opinions. Essays written for the course (6,000 words minimum) draw from the texts to present carefully reasoned arguments. At least one essay includes citations from secondary sources, documented according to current MLA format. This course is not open to students who have successfully completed ENGWR 482.

ARC Psychology
238005 (CCAA, FHS, GUHS, HHS, RLHS)
Grades: 11-12 Duration: Semester (10 credits)
HS Grad Req: Electives UC/CSU a-g: G: Electives
Prerequisite: None
Course Description: This course provides a broad overview of general principles of psychology. Topics include the scientific method, statistics, biological determinants, as well as general processes of behavior such as development, learning, language, intelligence, perception, motivation, emotion, personality, and mental health. This course is not open to students who have taken Psych 480. Course is offered through American River College Concurrent Enrollment.

ARC Sociology
238006 (CCAA, FHS, GUHS, HHS, RLHS)
Grades: 11-12 Duration: Semester (10 credits)
HS Grad Req: Electives UC/CSU a-g: G: Electives
Prerequisite: None
Course Description: This course examines principles and basic concepts in sociology. It includes the study of institutions, culture, social organizations, group interaction, social stratification, economy, politics, social movements, and urbanization.

ARC History of the United States
HIST 310
248001 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 12 Duration: Semester (10 credits)
HS Grade Req: U.S. History UC/CSU a-g: A: History
Prerequisite: None
Course Description: This course is a survey of United States history from its European, African, and Native American backgrounds to 1865. The course examines the origin and development of many of this nation's political, social, economic and intellectual institutions including their influences upon contemporary American life. These analyses also emphasize such historical concepts as cause and effect, multiple causation, and historical interpretation. This course is not open to students who have completed HIST 483.

ARC Introduction to Music
MUFHL 300
548001 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 12 Duration: Semester (10 credits)
HS Grade Req: Fine Art UC/CSU a-g: F: Fine Art
Prerequisite: None
Course Description: This course is an introductory examination of how composers and songwriters apply the various elements of music to heighten the expressive impact of a composition. Aspects of melody, rhythm, harmony, tone, and structure are studied through focused listening of works from the Renaissance to contemporary styles of avant-garde and popular music. This course requires no previous musical study.
ARC College Success
HCD 310
648001 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 12 Duration: Semester (10 credits)
HS Grade Req: Electives UC/CSU a-g: G: Electives
Prerequisite: None
Course Description: This course covers the skills and knowledge necessary for college success. Topics include motivation, self-discipline, learning styles, memory development, time management, communication skills, goal-setting, career planning, study skills and techniques, and critical thinking skills. Additionally, it covers personal issues that are commonly encountered by many college students. Campus resources, college regulations, and information competency are also addressed. This course is highly recommended for first time college students and/or continuing college students who would benefit. Field trips may be required.

ARC Introduction to Government: United States
POLS 301
248002 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 12 Duration: Semester (10 credits)
HS Grade Req: Govern UC/CSU a-g: A: History
Prerequisite: None
Course Description: This course analyzes the U.S. government's historic origins, philosophical and theoretical justification, federal structure, and constitutional structures. The course studies the rights and liberties of individuals as articulated in the U.S. Constitution and federal court decisions. Further, it examines and describes the procedural aspects of the U.S. and California political systems including amending the U.S. and California constitutions, holding elections, campaigning, legislating, executing and adjudicating law. The course examines individual and group political behavior in voting, interest groups, political parties, and the media. It provides an analysis of contemporary problems and issues and looks at factors that shape politics and policy-making including diversity, political culture, political socialization, political ideologies, and public opinion. Finally, it also describes California state and local governments' constitutional base, structures and functions, political process, problems and issues, and federal-state relations. This course is not open to students who have completed POLS 481.

ARC Nutrition
NUTRI 300
648002 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 12 Duration: Semester (10 credits)
HS Grade Req: Health? UC/CSU a-g: G: Electives
Prerequisite: None
Course Description: This course is an in-depth study of the essential nutrients and their functions, and the chemical compositions of foods and their utilization in the body. It includes discussion of the nutritional values of foods, current topics in nutrition, and an individual's nutrition needs throughout the life cycle.

ARC Health Science
HEED 300
648003 (CCAA, FHS, GUHS, HHS, RLHS)
Grade: 12 Duration: Semester (10 credits)
HS Grade Req: Health UC/CSU a-g: G: Electives
Prerequisite: None
Course Description: This course focuses upon factors which influence the health status of both the individual and the community. Topics include personal fitness, nutrition, sexuality, sexually transmitted disease, drug dependence including alcohol and tobacco, as well as diseases related to lifestyle.
