**What is a 504 Plan?**

A 504 Accommodation Plan may be developed for a student who is NOT enrolled in special education but who requires health related or other services during the day. A 504 Plan is a legal document falling under the provisions of the Rehabilitation Act of 1973. It is designed to plan a program of instructional services to assist students with disabilities who are in a general educational setting. A 504 plan is not an Individualized Education Program (IEP) as is required for special education students. However, a student moving from a special educational placement could be placed under a 504 plan.

**What is a Disability Under 504?**

An individual is determined to have a disability if she/he:

- Has a physical or mental impairment which substantially limits one or more major life activities (walking, seeing, hearing, speaking, breathing, learning, working, caring for oneself, performing manual tasks)
- Has a record of such impairment, or
- Is regarded as having such an impairment

This could mean that a student who has an Attention Deficit Disorder or some other disability and does not qualify for special education services may still be entitled to accommodations or other services in general education under Section 504.

**What is the Process for Placing a Student on a 504 Plan?**

There are essentially four steps:

1. Student is referred by teacher, support staff, parent/guardian, physician, or therapist initially to the Student Study Team.
2. The Student Study Team makes the referral to the 504 Plan team.
3. A 504 plan meeting is held and a plan developed if student qualifies.
4. A review date is set.
