Bus Identification Card Process

In the current 2019-2020 school year, the Transportation Department has implemented a Bus I.D. card process that helps us provide a safer environment for our students. Each student who is authorized to ride the bus will receive an I.D. card provided by the Transportation Department.

The purpose of the card is for the safety of the students and peace of mind for the parents. By utilizing these cards, parents can:

- Check when their student boarded the bus and at what location.
- Parents will also be able to see when they arrive or depart their school.

This feature is available through the My Stop app which is available on Google Play Store and or the Apple Store. Just search for Versatrans My Stop and download the app. Detailed instructions are available on the Twin Rivers Transportation Website.

Usage process of Bus I.D. cards:

- Each student will be required to scan their card upon boarding and leaving the bus. There are no exceptions to this process.
- If a student loses their card, they may request for a reprint from their front office. Some schools may have the ability to print at their sites, but if not, the office staff may request a new badge through the staff page Transportation Dept. website.
- Our office will receive the request and may have the card available with the driver by the afternoon or the next day.
- Each school has been given lanyards with sleeves for the cards that can be attached to students’ backpacks. Never punch a hole in the card under any circumstance. This will render the card useless.

If a student is chronically losing or refusing the card, this could result in the student ultimately losing their bus riding privileges. Disciplinary actions may include:

1. A verbal warning from the driver.
2. A written warning from the driver.
3. A one day suspension for the student.
4. A three day suspension for the student.
5. A week suspension for the student.
6. Loss of Privileges for the remainder of the year.
